Should you have additional questions, or wish to discuss this report in further detail, please do not hesitate to contact me at 266-8234.

Sincerely,
SCOTT NEITZEL
Chair

Dear Mr. Melvin:

Pursuant to 1985 Wisconsin Act 296, I am today filing the Wisconsin Acid Deposition Research Council Biennial Report. This report, including appendices, supplements the Executive Summary transmitted to you in July, 1988. The report contains all Research Council recommendations on acid deposition research and monitoring priorities, funding levels, and sources of funding.

The Wisconsin Acid Deposition Research Council was created by 1985 Wisconsin Act 296, and is attached to the Department of Administration. Members of the Research Council represent the industrial sector, electric utilities, environmental organizations, academia, and state governmental agencies.

It is hoped that these recommendations, the consensus product of over two years of intensive deliberations, will lead to a cost-effective and valuable research and monitoring program. A strong research and monitoring program is vital for assessing the potential effects of acid deposition on sensitive resources in Wisconsin.
