

Eighty-Ninth Regular Session

WEDNESDAY, July 18, 1990

The chief clerk makes the following entries under the above date.

PETITIONS AND COMMUNICATIONS

State of Wisconsin
Senator Kincaid

July 12, 1990

To the Honorable the Senate:

I have had the privilege of serving the people of Wisconsin in the State Legislature for nearly 18 years. After careful consideration of advice of my physician, I have made the decision to retire from the Wisconsin State Senate, due to my health, effective immediately. Therefore, I am hereby submitting my irrevocable resignation from the State Senate effective July 12, 1990.

I have chosen this date, as it would make it possible for a special election to fill the vacancy in office to be held concurrent with the regularly scheduled fall elections. If you would call the election immediately, it would save the taxpayers of my district the additional cost of a special election. I sincerely hope that you will take action to cause an election to be held concurrent with the fall elections.

Sincerely,
Lloyd H. Kincaid
State Senator
12th District

State of Wisconsin
Legislative Audit Bureau

July 11, 1990

To the Honorable the Legislature:

We have completed an evaluation of the level and allocation of the Department of Natural Resources' administrative costs, as requested by the Joint Legislative Audit Committee. We also reviewed the causes and consequences of a projected deficit within the Conservation Fund, first reported in December, 1989.

There are indications that department administrative expenditures may be too high and could be reduced. There are also weaknesses in the way in which the Department allocates administrative expenditures among its programs. We have included recommendations to the Department to further review administrative costs for potential savings and to analyze methods to better allocate these.

Questions about the level and allocation of administrative costs are exacerbated by the deteriorating financial condition of the Conservation Fund. When measured by fund balances, each of the Fund's three major accounts in the worst fiscal condition in ten years. The Department and Legislature will need to address these funding problems. We list a number of options the Legislature could consider in deciding how to improve the financial condition of the Conservation Fund and to ensure its long-term solvency.

We appreciate the courtesy and cooperation extended to us by the Department of Natural Resources. The response from the Department is Appendix II.

Sincerely,
DALE CATTANACH
State Auditor
