To the Honorable the Legislature:

Section 144.955(3)(f), Wis. Stat., requires the Hazardous Pollution Prevention Board (Board) submit a report to the Governor and to the Chief Clerk of each house of the Legislature each year in which a Capacity Assurance Plan is not revised. Enclosed are copies of the Board's report for the calendar year ending December 31, 1992.

The report provides information on the following items, as required by the statute:

- A. The Hazardous Pollution Prevention Audit Grant Program.
- B. The University of Wisconsin-Extension Hazardous Pollution Prevention Program

C. The hazardous pollution prevention activities of the Department of Natural Resources.

D. The implementation of the hazardous pollution prevention goals in the Capacity Assurance Plan.

In passing the legislation that resulted in 1989 Wisconsin Act 325, which set up the various pollution prevention activities, the Legislature recognized that there are opportunities to reduce or eliminate hazardous waste at the source. The Legislature also realized that a variety of educational assistance, technical assistance and financial assistance was required to alert Wisconsin Businesses to the profitability of considering modifications in order to reduce the amount of waste generated.

The members of the Board look forward to doing their part to help reduce the amount of hazardous waste generated in Wisconsin.

If you or anyone else would like to receive additional copies of the report, please contact Ms. Louie Rech at the Department of Development, P. O. Box 7970, Madison, Wisconsin 53707, telephone number: 608/266-2766.

Sincerely,
Christopher P. Swain, Chair

State of Wisconsin
Department of Natural Resources

January 10, 1992

To the Honorable the Legislature:

This past fall you passed Assembly Joint Resolution 70 relating to designating the Fox River-Lake Winnebago National Heritage Corridor. Prior to passage the Senate added an amendment which asked the Department of Natural Resources to review the feasibility of including the Lower Wisconsin River from Portage to Prairie du Chien in this designation.

Since that time, Senators Kasten and Kohl have introduced S.2006 which designated the Fox River as a National Heritage Corridor. S.2006 does not include the Lower Wisconsin River in that designation. Instead, it contains a requirement that the Secretary of the Department of Interior in consultation with the Governor conduct an assessment of the historical link of the Fox River Corridor and the Lower Wisconsin River. Therefore, an amendment to the proposed legislation would be needed to include the Lower Wisconsin River at this time. I have reviewed the proposed legislation with my staff and have discussed including the Lower Wisconsin River with staff from the Lower Wisconsin State Riverways Board. It is my position that with a few revisions we are now comfortable with including the Lower Wisconsin River as part of the national heritage corridor designation. Although I can support including the Lower Wisconsin at this time, I am also comfortable with the approach that is outlined in S.2006 which would be to conduct the assessment now and later amend the legislation to include the Lower Wisconsin in the designation.

I would like to explain our rationale for this recommendation. When the idea was first proposed, we had some reservations about including the Lower

JOURNAL OF THE SENATE [January 15, 1992]

Wisconsin River in the National Heritage Corridor designation. I believe the legislation which has been introduced by Senators Kasten and Kohl has addressed most of my concerns. However, I would like to recommend some changes which I believe can improve the legislation. I have attached these recommendations would welcome your comments.

I also believe it would be good idea for DNR to send a letter to Senators Kasten and Kohl which informs them that we can agree to either approach; including the Lower Wisconsin now or doing the assessment and include the Lower Wisconsin at a later time. I would like your comments and input into our proposed letter and our recommendations. I would like our draft letter to indicate the it reflects a consensus of the State of Wisconsin. I have attached draft of a proposed letter as well as our recommendations. Could you please review the proposed recommendations and draft letter and get back to us by January 22?

It is my hope this bill will now move forward and Wisconsin will be one of the few states with a National Heritage Corridor. My staff will work with you and work with the Federal Congressional Delegation to try to provide any assistance necessary to pass this legislation.

Please feel free to contact Paulette Harder at 266-0836 or Doug Fendry at 267-2764 if you have any questions on our attached recommendation. Please send your comments directly to Doug Fendry by no later than January 22.

Sincerely,
C. D. Besadny
Secretary

State of Wisconsin
Department of Health and Social Services
January 8, 1992

To the Honorable the Legislature:

The legislation that raised the minimum drinking age to 21 in 1986 mandated a study regarding the impact of this change. The Department of Health and Social Services (DHSS) and the Department of Transportation (DOT) cooperated in the conduct of this study. DHSS has been responsible for the analysis of data regarding alcohol and other drug usage, alcohol and other drug related law enforcement actions, alcohol abuse treatment and the role of alcohol and other drugs in suicides and other deaths among young persons, and also regarding changes in Wisconsin's per capita alcohol consumption. DOT has been responsible for the analysis of data regarding the role of alcohol in motor vehicle accidents and fatalities among young persons.

The legislation that mandated this study specified that four annual reports were to be prepared and submitted to the Legislature. The first three reports were each issued as a joint DHS/DOT report. The fourth and final report is being issued as two separate reports. DOT's fourth report was issued in 1991. The fourth DHSS

report on the impact of raising the minimum drinking age to 21 is attached. The final DHSS report is being issued separately from and later than the DOT final report in order to enable the inclusion of information from the recent statewide survey of alcohol and other drug use among Wisconsin middle school and high school students.

Sincerely,
Gerald Whitburn
Secretary

State of Wisconsin
Legislative Audit Bureau

January 10, 1992

To the Honorable the Legislature:

Chapter 314, Laws of 1979, established a preference for American-made materials, supplies, and equipment in state purchasing. Section 13.94(1)(L), Wis. Stats., requires the Legislative Audit Bureau to biennially monitor and review state purchasing procedures established to implement the American preference law and also to report to the Joint Legislative Audit Committee concerning the extent to which state departments, boards, commissions, and independent agencies are purchasing materials, supplies, or equipment manufactured outside of the United States.

In Prior reviews, we reported on the difficulties encountered in applying the law, in part because the primary criterion for exercising a preference is relatively narrow. The preference for American-made materials can only be exercised when tie bids or equal proposal scores occur. During the 1989-91 biennium, we were unable to identify any instances where the preference was exercised in a contract award.

As in our previous reviews, we were unable to determine the amount of foreign purchasing due to incomplete data concerning the origin of products purchased. Determining the origin of products continues to be a problem because many manufacturing firms produce and assembly goods with a mix of American and foreign labor and raw material. Because the provisions of the law may be unworkable, we suggest the Department consider initiating legislation to have the American-made preference legislation repealed. In the event the law remains unchanged, we recommend the program's audit requirement be changed to once every five years.

We appreciate the courtesy and cooperation extended to us by the Department of Administration and other state agencies. The Department's response is the appendix.

Sincerely,
Dale Cattanach
State Auditor
