State of Wisconsin
Department of Administration
Madison

May 28, 1993

To the Honorable the Assembly:

Enclosed is a copy of the *Wisconsin Acid Deposition Research Council Third Biennial Report: A Status Report of Acid Rain Research in Wisconsin* which was originally filed in July 1992 pursuant to 1985 Wisconsin Act 296. This report summarizes the results of the Council's six-year effort, emphasizing the last two years and outlining the role of acid rain research in the future.

The Wisconsin Acid Deposition Research Council was created by 1985 Wisconsin Act 296 and is attached to the

Department of Administration. The Council was impaneled in May of 1986 and its seven members represent industry, electric utilities, environmental organizations, academia, and state government.

As the 1992 Biennial Report indicates, Wisconsin continues to lead the nation in acid deposition policy, research and monitoring activities. As we approach the 1993 compliance date for the fifty percent reduction of sulfur dioxide emissions, the Council's major emphasis will be to assess the effectiveness of that reduction and to address any remaining research issues and concerns. The Council believes that long term monitoring will be required to fully evaluate the benefits to the environment and to the overall quality of life for Wisconsin's citizens.

Should you have additional questions, or wish to discuss this report in further detail, please do not hesitate to contact Jolene Anderson at 608/266-7375.

Sincerely,
JAMES R. KLAUSER
Secretary, DOA
NATHANIEL E. ROBINSON
Chair, WI Acid Deposition
Research Council

Representative Travis moved that the assembly stand adjourned until 10:00 A.M. on Wednesday, June 9.

The question was: Shall the assembly stand adjourned?

Motion carried.

The assembly stood adjourned.

10:01 A.M.
