PETITIONS AND COMMUNICATIONS

State of Wisconsin
Legislative Audit Bureau

March 23, 1993

To the Honorable the Legislature:

We have completed a financial audit and program evaluation of the State of Wisconsin Lottery Board to meet our audit requirements under s. 13.94(1)(em), Wis. Stats. and as requested by the Lottery Board to meet its

requirements under s. 565.37(1), Wis. Stats. The Lottery Board, which was created in December 1987, was replaced by the Gaming Commission on October 1, 1992.

The Wisconsin Lottery has provided almost \$419 million of property tax relief since its inception, including over \$236 million in fiscal year (FY) 1991-92. However, primarily because large carry-over balances of unspent lottery proceeds are no longer available, the amount available in future years will be significantly less than in prior years.

In FY 1991-92, the Lottery Board had ticket sales of \$449.1 million, representing an increase of almost 15 percent over the previous fiscal year. The percentage of lottery revenue returned to players has been gradually increasing since the Lottery's inception, in order to maintain player interest and to increase sales. However, ticket sale trends to date in FY 1992-93 indicate that the rate of growth may be slowing.

Our program evaluation focused on the extent to which steps have been taken to address concerns raised during previous audits of the Lottery Board, particularly in the areas of personnel management and security. We found that the Lottery Board has been generally successful in taking actions to address the identified concerns. However, it is likely that recent events related to disclosure of the collection of retailer fees and the manipulation of encumbrances, as described in our report 93-2, and the recent decision to contract with a private company to deliver some lottery tickets to retailers have had an effect on employee morale. It will be important for the Gaming Commission to ensure continuity of effort to address morale concerns by establishing a plan to address identified employee concerns.

We appreciate the courtesy and cooperation extended to us by the Lottery Board staff. The response from the Gaming Commission is Appendix IV.

Sincerely,
Dale Cattanach
State Auditor

State of Wisconsin
Council on Recycling
Department of Natural Resources
March 15, 1993

To the Honorable the Legislature:

The Council on Recycling, created by 1989 Wisconsin Act 335 under s. 15.347(17), Wis. Stats., is a body of citizens given responsibilities to advise the Governor, Legislature, and state agencies on implementation of state solid waste reduction, waste recovery, and recycling programs.

On behalf of the Council on Recycling, I am pleased to provide you with an executive summary of the Council's activities for 1992. This report is being submitted for your distribution to interested Legislators so that they may obtain an overview of the Council's activities over the past year.

The Council has discussed a wide variety of issues in 1992, and many of the themes and topics have carried over to the formulation of the Council's goals for 1993. In particular, the Council is targeting markets development as a priority. In pursuit of this, the Council will be raising its visibility to the public and holding several of its monthly meetings this year at locations outside of Madison. Two of our meetings this year have already been held outside of Madison in order to hear regional perspectives on markets development and other recycling issues. The format of the meetings provide a convenient avenue for local county officials, representatives of businesses, and the general public to relay their successes, ideas, and concerns regarding the implementation of the recycling law.

Please contact Jim Bertolacini, staff to the Council, at 267-7594 if you should have any questions about this report or the Council on Recycling.

Sincerely,
Robert Reichelt
Chair
