PETITIONS AND COMMUNICATIONS

State of Wisconsin
Department of Development
June 30, 1993

To the Honorable the Legislature:
Annual Report for the Milwaukee Economic Development Corporation and the Capital Access Program.

In accordance with s. 560.194(4) Wis. Stats., the Department of Development is submitting the annual report for the Milwaukee Economic Development Corporation and the Capital Access Program. This report is to be distributed in accordance with s.13.172(2) Wis. Stats.

State of Wisconsin
Public Service Commission
June 30, 1993

To the Honorable the Legislature:

I am writing to advise you of the status of a Commission report that is being prepared pursuant to 1991 Wisconsin Act 268, sec. 3. That law directed the Commission to prepare a study of how information generated in the course of a telecommunications transaction is used by the utility and third parties:

Section 3. Nonstatutory provisions;

telecommunications study. The public service commission shall conduct a study to determine how telephone line identification numbers and other consumer information maintained by a telecommunications utility are used or may be used by that utility and how that customer information is accessed and used or may be accessed and used by other telecommunications utilities, by customers of the utility and by 3rd parties. The public service commission shall report its findings before July 1, 1993, to the chief clerk of each house of the legislature for distribution to the appropriate standing committees in the manner provided under section 13.172(3) of the statutes.

The commission requests an extension of the deadline to file this report. The report addresses a subject matter, caller identification, that is presently under investigation at the commission. At the time the legislation was enacted, we were of the belief that the Commission's investigation of caller identification would be completed by now. However, that investigation has been delayed to accommodate the schedules and funding requirements of the intervenor parties, and the technical hearings in this docket will be conducted during the week of August 9, 1993. Since the report will depend in part upon the factual matters that will be introduced at hearing and upon the order that the commission will ultimately issue, it is important to protect against the appearance of prejudging this matter. Therefore, the Commission requests an extension by which to file this report until 30 days after the Commission issues its order in the matter of caller identification.

Thank You for your consideration, I remain,

Sincerely,
Cheryl L. Parrino
Chairman
