State of Wisconsin
 Department of Natural Resources
 Madison

October 31, 1995

To the Honorable, the Legislature:

It is my pleasure to present to you the report entitled "Use of Wood Ash as Soil Amendment". This report has been prepared to fulfill the requirements of the 1995-1997 biennial budget (Act 27), specifically Section 9142 (1g). This provision of the budget bill directed the Department of Natural Resources to prepare a report "on how it will facilitate the use of wood ash and coordinate activities related to the use of wood ash by producers of wood ash, farmers and the Department".

The Department has played a strong role in encouraging beneficial reuse efforts by industries. In the last ten years significant landfill space has been saved by diverting high volume industrial waste into productive reuses such as concrete and asphalt production, sand blasting grit, highway embankment projects and other uses. The Department is currently working with industry representatives and other interested parties to develop rules which will result in further environmentally protective reuse opportunities. We have also initiated changes which specifically encourage the beneficial reuse of wood ash, including meeting with producers and

agricultural representatives. We will continue to work with farmers and producers to increase the use of this resource.

If you have any questions or comments on this report, please contact Lakshmi Sridharan, Chief of the Solid Waste Management Section. Her telephone number is 266-0520.

Sincerely,
GEORGE E. MEYER
Secretary, DNR
