Also available from the Wisconsin Ethics Board are reports identifying the amount and value of time state agencies have spent to affect legislative action and reports of expenditures for lobbying activities filed by the organizations that employ lobbyists.

Sincerely,
R. Roth Judd
Executive Director

*Each organization identified has filed a verified statement, with the Ethics Board stating that it does not expect to spend more than \$500 in a calendar year for lobbying activities. The organization is not required to file a Statement of Lobbying

Activities and Expenditures and the organization's lobbyist is exempt from the licensing requirement [s. 13.621(5) *Wisconsin Statutes.*].

The Honorable, The Legislature:

We have completed an evaluation of the Children At Risk program as directed by s. 118.153(6), Wis. Stats. The program, created by the Legislature in 1985, is intended to increase the number of students attaining high school diplomas by improving services to those at risk of failing in, or dropping out of, school. The program was appropriated \$3.5 million in general purpose revenue for each year of the 1993-95 biennium and is administered by the Department of Public Instruction.

Changes made to the Children At Risk program by 1993 [Wisconsin Act 16](#) have had a significant effect on the distribution of funds to local school districts. As a result of stricter eligibility requirements, substantially fewer school districts and students within those districts are eligible to receive funding.

This narrowing of eligibility has increased the amount of funding distributed to 4 of the 12 school districts eligible to apply for program aid. However, eight other districts, including Kenosha, Milwaukee, and Racine, which were required to apply for program funding because of high numbers of school dropouts, experienced a significant decrease in funding. As a result, we estimate that only 53.4 percent of the program's \$3.5 million appropriation, or \$1.87 million, will be distributed in the fiscal year 1994-95.

It is unclear whether this shift in funding will address concerns about the program's lack of effect on graduation rates, which we identified in a previous evaluation, particularly since department and district staff have little confidence in the modified program. Therefore, the Legislature needs to consider whether funds currently appropriated for the program should be used for different purposes.

We appreciate the courtesy and cooperation extended to us by department staff and staff from the school districts we contacted. The Department of Public Instruction's response is Appendix II.

Sincerely,
DALE CATTANACH
State Auditor
