SUBJECT: Clearinghouse Rule No. 94-31

Gentlemen:

On October 12, 1994 the Senate Committee on Environment and Energy requested the Department of Natural Resources to modify Clearinghouse Rule No. 94-31 relating to clean up to environmental contamination. On October 20, 1994, the Assembly Committee on Natural Resources also requested modifications. At its January 26, 1995 meeting, the Natural Resources Board adopted modifications that are incorporated in the attached order.

Attached is a copy of the memo to the Natural Resources Board which details the key issues and the Department's recommendations which were adopted by the Natural Resources Board.

Under s. 227.19(4)(b)2, Stats., the Department of Natural Resources refers this rule to your committees for an additional 10 working day review on the modifications. If the Department does not hear from you within 10 working days of the receipt of this notification, the Department will continue processing this rule.

Sincerely,

George E. Meyer
