TO: My State Senator and Assembly Representative

As a Wisconsin motorist and AAA member, I strongly support legislation requiring trucks carrying loads of bulk material (sand, gravel, metal pieces, etc.) to be covered to prevent that material from falling to the roadway. This kind of debris causes millions of dollars worth of damage to Wisconsin passenger vehicles each year. Requiring bulk loads to be covered is a reasonable, cost-saving, damage-preventing step already taken by many other states. I'm asking you to sponsor and vote for covered-trucks legislation early in 1999.

Other comments: I HAVE HAD MULTIPLE CASES OF FRONT END, HOOD, AND WINDSHIELD DAMAGE CAUSED BY UNCOVERED BULK MATERIAL HAULING.

As a Wisconsin motorist and AAA member, I strongly support legislation requiring trucks carrying loads of bulk material (sand, gravel, metal pieces, etc.) to be covered to prevent that material from falling to the roadway. This kind of debris causes millions of dollars worth of damage to Wisconsin passenger vehicles each year. Requiring bulk loads to be covered is a reasonable, cost-saving, damage-preventing step already taken by many other states. I'm asking you to sponsor and vote for covered-trucks legislation early in 1999.

THIS MATTER IS JUST ONE MORE DANGER on OUR ROADS. PLEASE HELP US!

Dear Representative:

Senate Bill 3, the mining moratorium bill, may soon come to the Assembly floor. I urge you to support efforts to modify the bill in order to maintain Wisconsin's mining industry.

I know you may come under pressure from activists who are using this bill not only as a way to stop the Crandon mine, but as a vehicle to stop mining in our state.

As an employee / retiree of P&H Mining Equipment, I too support preserving our environment. I also support preserving jobs in our state. SB3 will add nothing to environmental protection in our state while endangering many jobs that are a part of this vital global industry.

Please modify SB3.

Dear Representative:

Please support "SB 3 and AB 70" legislation which would prevent metallic sulfide mining in the State of Wisconsin until it has been proven to be safe.

No metallic sulfide mine has been successfully operated and reclaimed anywhere in the world.

Our clean safe water and local economies need to be protected.

Sincerely,

~~~~~

John Peterson

Dear Representative Duff,

I am writing as a concerned citizen on the issue of the Mining Metallium Bill. I believe that the current Mining Permit Process is not in our interest by the MNR, our regulator's justice. The MNR will mine his business compliance with the mining regulations and it is up to the taxpayer in CO to believe that the MNR will regulate as the owner. The Mining Metallium Bill would further erode the resource wealth of Northern CO, as well as the other state. Please keep me informed on your position on this Bill. Sincerely, David D. Skovron

Dear Representative Duff,

disgusted with the Republican party. I always  
thought the Republicans were smart, but I don't  
think so, now. What they need is more people like  
"Newt Gingrich" who are not afraid to talk and I  
think that he is an excellent speaker, but I  
guess some Republicans do not think so. I don't  
think putting signs up is the way to get new  
members.

Sincerely yours, Mary ~~ette~~

Dear Representative Duff,

I am writing concerning the proposed  
mining moratorium. As a citizen and voter  
& am against it. It has led to many  
injuries on the many people. Particularly by the  
suppliers etc. Especially in light of the fact  
that mining in Wisconsin is ~~delegated~~  
adequately controlled. I urge you to  
oppose the moratorium unless ~~unilaterally~~  
and would appreciate your response  
concerning this issue.

Sincerely,  
Paul Sherman

Dear Marc

As one of your voters - I would  
like you to know I am very opposed  
to the Mining Moratorium Bill. It is  
NOT proper legislation as far as  
our concerns - There have been  
jobs <sup>that</sup> should be regarded by the Dept.  
of Natural Resources. Also the purchase  
they had ~~arrange~~ to buy ~~business~~  
Mining to locate in Wisconsin.

Mary Joe Swatten

Dear Marc:

Please oppose the Mining Moratorium bill. I have litigated property rights taking cases & find nothing more frustrating than legislative inaction over private property. In this case, especially, livelihoods are in the balance.

Thanks.  
Bush Nelson

Dear Rep. Buff,

Please keep your opposition to the Mining Moratorium Bill. A couple years ago a well known businessman was quoted as saying "Trying to run a business in the 90's is a nightmare." Let the DNR research, oversee the mining. They certainly have enough know to do a good job of protecting the environment. The people who support the bill have underlying and unstated motives not the protection of the environment as they claim. Joseph P. Kelly

Mr Duff

We want to keep long term family jobs jobs in Wisconsin looking for your vote "NO" on the Mining Moratorium Bill

Mr Frank Borowski

Sir

Mining is one time with drakes laws & fines

after

most anything can be planted

Dear Sir, I support mining in  
Alaska.

The proposed Golden underground  
mine will provide the payment of  
\$119 million dollars. That money  
will benefit all Alaskans.

Thank you

Jon Rowels

Mr. Morse Qufts

I feel the integration DNR should  
be responsible in the mining  
bill recommendations and such  
seeing the operators, they are  
very good and realistic.

Sincerely

John B. Langberg

Pr. of all areas that mining there  
would be would stand still

10/14/97

Dear Representative Mike Duce

As a stockholder in mining companies  
and companies that rely on mining  
products I want to urge you to  
vote NO on the mining operator  
bill.

Miners and settlers come here to  
participate in mining and mining is  
essential to our countries development.  
Please keep politics out of your  
decisions.

Andy Jensen

Dear,

You have my support,

Make sure the assembly

kills any mining legislation

Thank you  
John B. Langberg
