Require health insurance covera	ge of contraceptive services and article	es	

Assumptions Used in Arriving at Fiscal Estimate

This bill would require all health insurance plans to cover contraceptive services and articles including managed care plans; health plans offered by the state; and self insured plans offered by school districts, counties, cities and villages.

OCI regularly reviews Policy forms to ensure they comply with all state laws. OCI does not directly administer insurance plans to state employees and anticipates no direct impact to the agency. The Department of Employe Trust Funds will be providing an estimate of state and local government costs.

Consistent with s.601.423, Wis Stat., this office will prepare a social and financial impact statement.
