Handgun purchaser check; correcting incorrect information					

## **Assumptions Used in Arriving at Fiscal Estimate**

This bill statutorily requires that the department of justice develop a system for making corrections to the criminal history database, the database used to conduct background checks for handgun sales. Currently, the department has developed the system for making corrections to a criminal history file in its administrative rules. This legislation would codify that process. Therefore there is no fiscal effect from this legislation.

**Long-Range Fiscal Implications**
