Assumptions Used in Arriving at Fiscal Estimate

NOTE: This fiscal estimate includes funding and FTE provided in the bill as well as additional funding and FTE identified by the Department of Workforce Development as necessary to carry out the activities in the bill.

Workplace Diversity Grant Program. The bill provides \$120,000 in one-time funding for grants to local, non-profit organizations. Costs associated with administering this grant program can be absorbed within the department.

Job Retention Skills Development Program. The bill creates a program funded with \$200,000 TANF in SFY03 to be transferred from 20.445 (3)(md) to the technical college system board. There is currently sufficient funding in unalloted reserve in SFY03 to fund this transfer. However, this would reduce the TANF ending balance for the biennium by \$200,000.

Apprenticeship Marketing. The bill creates an Apprenticeship Marketing Council, establishes membership terms and membership make-up. It also provides funding for marketing materials and two positions in each of the two years for the Bureau of Apprenticeship Standards (BAS). The department already has an Apprenticeship Advisory Council and if the Marketing Council is made up of members of the Advisory Council, the costs for implementing this section other than the provided funding will be minimal and can be absorbed. \$150,000 is allocated to each year for materials and \$125,000 each year for two positions.

Preapprenticeship Basic Skills Training. This provision provides \$300,000 in each fiscal year for the department to contract with an organization to preapprenticeship basic skills training grants. It is assumed that grant vouchers up to \$500 would be provided to eligible persons for costs associated with this training. It is unclear in the bill language whether a portion of the funding is to be used for a contract with an organization to administer the program or if the funding is to be used solely for training grants. If the department is to administer the program, a grants specialist and an industry and labor training coordinator will be needed to administer the grants and oversee the program, as these duties cannot be absorbed by current staff. Therefore, agency costs, not funded in the bill, are estimated at \$150,000 for 2 FTE.

Long-Range Fiscal Implications
