Drunken driving surcharge									

Assumptions Used in Arriving at Fiscal Estimate

This bill increases the driver improvement surcharge from \$355 to \$455. Under the bill, \$100 of the surcharge is given to the law enforcement agency that arrested the person who is convicted of the violation relating to operating a vehicle while intoxicated. The law enforcement agency is required to use the money to purchase and maintain law enforcement equipment that will be used to prevent alcohol-related and other drug-related criminal activity. The remaining \$355 is distributed, as under current law, between the county where the conviction occurs and the state.

This bill would have no fiscal effect on the Department of Health and Family Services, county human services, or social service departments. The \$100 increase in the surcharge would be transmitted directly from the circuit or municipal court to the law enforcement agency.

Long-Range Fiscal Implications
