## Fiscal Estimate Narratives PSC 2/27/02

LRB Number	01-4141/1	Introduction Number	AB-832	Estimate Type	Original	
Subject		***************************************				
Including residential wells in engineering plans for certificates of public convenience and necessity for electric generating facilities						

## **Assumptions Used in Arriving at Fiscal Estimate**

This bill, if passed, would not have a fiscal effect on the Public Service Commission.

The bill prohibits the PSC from issuing a certificate of public convenience and necessity (CPCN) until the Department of Natural Resouces (DNR) has completed work on it's permits including a new requirement under the bill to consider the effects of the electric generating factilities on residential wells. The bill further requires those utilities who have been issued a CPCN from the Commission before the effective date of this bill to file a supplemental engineering plan with the DNR.

## **Long-Range Fiscal Implications**

None
