Subject										
Five-point plan for tobacco settlement revenues										

Assumptions Used in Arriving at Fiscal Estimate

This bill creates a new appropriation in the Department and requires that 30% of the tobacco settlement funds be deposited in this appropriation. The bill directs the Department to distribute these funds to hospitals for which Medical Assistance revenues were at least 8% of the hospital's total revenues, according to a formula currently in statute. This bill will not have a fiscal effect on the Department.

Long-Range Fiscal Implications
