Assumptions Used in Arriving at Fiscal Estimate:

This bill creates an individual income tax exemption for the first \$5,000 of pension payments received by an individual each year, provided that the filer's pension income is not already exempt from taxation.

Under current law, the pension benefits of certain public employees are already exempt from state taxes, including individuals who were member of or retired from the following plans as of December 31, 1963: U.S. civil service or military, Milwaukee city and county, Milwaukee police officers and public school teachers, Wisconsin state teachers, and Milwaukee County sheriffs funds. This bill effectively expands the current exemption to include a portion of previously non-exempt pension income for all retirees, public and private.

Based on a simulation using the 1999 Wisconsin Individual Income Tax Model, adjusted to reflect current law, creating an exemption as outlined above will affect 279,000 retirees and reduce income tax revenues by \$68.5 million annually.

The Department would incur on-going administrative costs of \$10,400 for data collection, adjustment activity, and supporting expenses.
