The listing for local and toll service is revised, to reflect the tax treatment of certain telecommunications services that originate or terminate in Wisconsin, as a result of the amendment of s. 77.52(2)(a)5. Stats., by 1997 Wis. Act 27. Taxable telecommunications message services are added, as a result of the creation of s. 77.52(2)(a)5m., Stats., by 1997 Wis. Act 27.

Tax 11.66(2)(a)(intro.) ~~The~~ Except as provided in sub. (3), the sale of telecommunications services is subject to Wisconsin sales or use tax if both of the following occur:

1. The service originates or terminates in Wisconsin.

Note to Revisor: Add the following examples at the end of Tax 11.66(2)(a)1. as renumbered:

Examples: 1) Mary Jones places a telephone call from her home in Wisconsin to Bill Jones in Illinois. The call originated in Wisconsin since it was placed from a telephone in Wisconsin.

2) Mary Jones receives a collect call at her home in Wisconsin. The call was placed by Bill Jones from a telephone in Illinois. The call terminated in Wisconsin since it was received in Wisconsin.

2.(intro.) The service is charged to a service address in Wisconsin, regardless of the location where that charge is billed or paid. These charges include the following:

Note to Revisor: Add the following example at the end of Tax 11.66(2)(a)2.d. as renumbered:

Example: Ed Brown has a credit card issued by DEF Corporation but uses ABC Corporation as his dial 1 equal access service provider. All long distance calls he makes from Wisconsin and which are charged to his credit card account are considered to be charged to a service address in Wisconsin, regardless of whether the telephone number or account number appear on the bill and regardless of where the bill is mailed.

SECTION 6. Tax 11.66(2)(intro.), (a)(title) and (b) are created to read:

Tax 11.66(2)(intro.) GENERAL. This subsection describes the conditions under which telecommunications services and telecommunications message services are taxable. The conditions are as follows:

(a)(title) *Telecommunications services.*

(b) *Telecommunications message services.* Telecommunications message services that consist of recording telecommunications messages and transmitting them to the purchaser of the service or at that purchaser's direction are taxable, except that those services are not taxable if either of the following apply:

1. They are merely an incidental element of another service that is sold to the purchaser and is not taxable.

2. The situs of the service is outside this state. The situs of a telecommunications message service is the location where the customer, or someone at the direction of the customer, receives the message.

SECTION 7. Tax 11.66(3) is repealed and recreated to read:

Tax 11.66(3) PRIVATE COMMUNICATION SERVICE. The origination, termination, service address and credit for tax paid to another state for private communication service are determined as follows:

(a) Private communication service for a separate charge related to a customer channel termination point located in Wisconsin is subject to Wisconsin sales or use tax.

(b) Private communication service where all customer channel termination points are located in Wisconsin is subject to Wisconsin sales or use tax.

(c) Of the charge for a segment of a communications channel for private communication service between two customer channel termination points, 50% is subject to Wisconsin sales or use tax if one customer channel termination point is in Wisconsin and the other customer channel termination point is outside Wisconsin and segments of the communications channel are separately charged.

(d) If segments of a communications channel are located in Wisconsin and outside Wisconsin and the segments are not separately billed, the percentage of the charge for private communication service subject to Wisconsin sales or use tax is determined by dividing the number of customer channel termination points in Wisconsin by the total number of customer channel termination points.

(e) No credit for tax paid to another state is allowed where the other state apportions the service in a manner similar to that provided in pars. (c) and (d).

Examples: 1) Company A contracts with Telecommunications Provider B for private communication service to send data from Company A's bank, located in Milwaukee, Wisconsin, to Company A's automated teller machines or "ATMs," located in Waukesha, Wisconsin, and to send data from its ATMs in Waukesha to its bank in Milwaukee. The charge by Telecommunications Provider B to Company A is based on a certain amount of dedicated channel capacity available to Company A on the communications channel, regardless of the volume of data transmitted or number of transmissions made by Company A. Telecommunications Provider B refers to this service as "private line service." These services originate and terminate in Wisconsin and all of the charge is subject to Wisconsin sales or use tax.

2) Company JKL, headquartered in Milwaukee, Wisconsin, has branch offices in Madison, Wisconsin, Green Bay, Wisconsin, Chicago, Illinois and Minneapolis, Minnesota. Company JKL contracts with a telecommunications company for private communication service

to send messages between and among its Milwaukee office and the branch offices. Company JKL has exclusive use of the channels while using them. The telecommunications company sells use of the communications channels to other parties while Company JKL is not using them. The charges by the telecommunications company to Company JKL are based on a certain amount of dedicated channel capacity available to Company JKL on the communications channels. The telecommunications company does not bill separately for the segments of the communications channel. Increasing capacity requires a higher charge. The telecommunications company refers to this service as "private line service." Of the charges by the telecommunications company to Company JKL for this service, 60% are subject to Wisconsin sales or use tax because 3 of the 5 customer channel termination points are located in Wisconsin.

SECTION 8. Tax 11.66(4)(intro.) and (a) to (c) are renumbered (5)(intro.) and (a) to (c), and as renumbered Tax 11.66(5)(intro.), (a) and (c) are amended to read:

Tax 11.66(5)(intro.) NONTAXABLE SERVICES. Gross receipts from the sale of or charge for the following services are not taxable:

(a) Interstate or international telecommunications service if the service ~~originates from another state or country or if the service originates in Wisconsin but is charged to a service address in another state or country.~~

(c) Access Transfers of access services, Measured Toll Service, ~~or MTS,~~ or "MTS" and Wide-Area Telecommunications Service, ~~or WATS, services resellers or "WATS" services to resellers who purchase, repackage, and resell the services to customers. The reseller is liable for sales tax on its final retail sales of those services.~~

SECTION 9. Tax 11.66(4)(d) and (e) are repealed.

Note to Revisor: Remove the example that follows Tax 11.66(4)(d) before its repeal.

SECTION 10. Tax 11.66(4)(f) and (5) are renumbered Tax 11.66(5)(e) and (8), and as renumbered Tax 11.66(5)(e) is amended to read:

Tax 11.66(5)(e) Transfers of services, commonly called "access services," to an interexchange carrier which permit the origination or termination of telephone messages between a customer in this state and one or more points in another telephone exchange, and which are resold by the interexchange carrier. The interexchange carrier is liable for sales tax on its final retail sales of those services.

SECTION 11. Tax 11.66(4), (5)(d), (6) and (7) are created to read:

Tax 11.66(4) TAXABLE SERVICES. Gross receipts that are subject to Wisconsin sales or use tax include gross receipts from the sale of the following services:

(a) Telecommunications services, including the following:

1. Local and toll service and Wide-Area Telecommunications Service or "WATS."
2. Channel services.
3. Telegraph services.
4. Teletypewriter services.
5. Computer exchange services.
6. Cellular mobile telecommunications services.
7. Specialized mobile radio services and any other form of mobile one-way or two-way communications service.
8. Stationary two-way radio services.
9. Paging services.
10. Facsimile, or FAX, transmission services.
11. Teleconferencing services.
12. Call forwarding services.
13. Caller ID services.
14. Internet access services.
15. Any other transmission of messages or information by electronic or similar means between or among points by wire, cable, fiber optics, laser, microwave, radio, satellite or similar facilities.

Note: Refer to sub. (6) regarding the sale of rights to purchase telecommunications services.

(b) Telecommunications message services, including the following:

1. Nonmechanical telephone answering services.

Examples: 1) A real estate business, whose employees spend considerable periods of time away from its office, contracts with Company A to answer incoming telephone calls during periods when employees are not available to answer the telephone. Employees of Company A receive the calls to the real estate office by telephone, take messages from incoming callers and transmit the messages to the real estate company or particular employees in that company. The service provided by Company A is not an incidental element of another service sold by the company that is not a taxable service. Company A's charge for this service is subject to Wisconsin sales or use tax.

2) Company B employs an office management service that provides receptionist, typing, filing, scheduling, bookkeeping and similar services. Employees of the office management service also answer and route incoming telephone calls. When calls cannot be routed, the office management service takes and transmits messages to the appropriate person. This answering service is only a small part of the total services provided.

The telephone answering service provided as a part of the office management service is not subject to Wisconsin sales or use tax because it is incidental to the office management service provided and that office management service is not taxable.

2. Security monitoring services that consist of recording a telecommunications message and notifying the customer or local authorities of the message.

3. Electronic mail services.

4. Mechanical or electronic voice messaging and telephone answering services.

Example: Company A provides its customers access to an office message system computer through which a customer can deposit or retrieve telephone messages using a touch-tone telephone. The service may be used as a message center, a call forwarding service or an answering service. Messages are stored in the computer, and the customer may send or retrieve messages, reply to a message directly, reroute messages to others, broadcast messages to a wider group, save selected messages and cancel messages no longer needed. The service is available 24 hours a day, and the customer accesses the computer through either a toll-free telephone number or a local telephone number. The service provided by Company A is not an incidental element of another service sold by the company that is not a taxable service. Company A's charges for this service are subject to Wisconsin sales or use tax.

(5)(d) Services that are obtained by means of a toll-free number, that originate outside Wisconsin and terminate in Wisconsin.

(6) PREPAID TELEPHONE CALLING CARDS AND AUTHORIZATION NUMBERS. (a)

The sale of rights to purchase telecommunications services, including purchasing reauthorization numbers, by paying in advance and by using an access number and authorization code, is subject to Wisconsin sales or use tax.

(b) The situs of the sale of the rights to purchase telecommunications services is as follows:

1. If the sale takes place at a retailer's place of business, the situs of the sale is that place of business.

2. If the sale does not take place at a retailer's place of business and an item that will implement the right to purchase telecommunications services, such as a calling card, is shipped, the situs of the sale is the customer's shipping address.

3. If the sale does not take place at a retailer's place of business and no item that will implement the right to purchase telecommunications services is shipped, the situs of the sale is the customer's billing address.

(7) CREDIT FOR TAX PAID TO ANOTHER STATE. Except as provided in sub. (3), any person who is subject to the tax under s. 77.52(2)(a)5., Stats., on telecommunications services that terminate in Wisconsin and who has paid a similar tax on the same services to another state may reduce the amount of the tax remitted to Wisconsin by an amount equal to the similar tax properly paid to another state on those services or by the amount due Wisconsin on those services, whichever is less. That person shall refund proportionally to the persons to whom the tax under s. 77.52(2)(a)5., Stats., was passed on an amount equal to the amounts not remitted.

Note to Revisor: 1) Replace the first note at the end of Tax 11.66 with the following:

Note: Section Tax 11.66 interprets ss. 77.51(17m) and (21m), 77.52(2)(a)5. and 5m., (2m) and (3m) and 77.525, Stats.

Assumptions Used in Arriving at Fiscal Estimate:
