Adm. Code, relating to revising Wisconsin agent licensing rules to be reciprocal and more uniform under Gramm Leach Bliley Act and the NAIC Producer model.

ANALYSIS PREPARED BY THE OFFICE OF THE COMMISSIONER OF INSURANCE

Statutory authority: ss. 601.41(3), 628.02 to 628.11, 628.40 and 628.34(12), Stats.

Statutes interpreted: ss. 628.02 to 628.11 and 628.40, Stats.

Under the recently enacted federal Gramm Leach Bliley Act (the "GLBA"), Wisconsin and other states must become reciprocal or uniform in certain licensing practices. These changes would accomplish reciprocity.

The changes would also attempt to make insurance producer licensing more uniform and simplify multi-state licensing. If Wisconsin and at least 27 other states do not enact "reciprocal" or "uniform" rules regarding licensing, a federal licensing body similar to the "National Association of Securities Dealers" would be created to take over insurance agent licensing functions from the states. The National Association of Insurance Commissioners (the "NAIC") model Producer Act was developed by state insurance regulatory bodies to accomplish this and this rule adopts many provisions of the NAIC model.

New limited lines licenses are created for rental car insurance and legal expense insurance. Certain modifications in the licensing procedures are required by new agent licensing software purchased and currently being installed by OCI. The following analysis discusses the specific changes.

The lines of intermediary licenses issued by Wisconsin have been changed to reflect the lines required for reciprocity and 2 new limited lines. Reciprocity requires Wisconsin to issue licenses for the same authority which a non resident applicant has in their home state. The NAIC model sets out the major lines required including the

new "personal lines" license and this rule change conforms Wisconsin to these. In addition, to deal with the various limited line licenses issued by other states, the rules creates a Miscellaneous Limited line which grants the nonresident agent only the authority which the resident state granted under its limited line license.

Provisions were added regarding rental car insurance sold that would exempt the counter sales persons if certain requirements were complied with including supervision by an agent holding a limited line rental car insurance license.

New software purchased by OCI requires that insurers appoint agents by line of authority so that a cross check can be made to insure that both the agent and the insurer hold the authorities being requested. These revisions do not change the amount of fees required to be paid. Insurers will be billed for each appointment submitted for an agent. An additional appointment may have to be submitted if the insurer doesn't not specify all lines of authority in the initial appointment or the agent later is granted additional authority and thus the insurer would need to add this new authority with an additional appointment. Currently, this additional authority is granted without additional fees, but new software purchased for agent licensing will not accommodate this. The current term, "listing," used for these "appointments" is changed to conform to the description used by most other states. The effective date of the appointment is made to be 15 prior to the date it is entered on the OCI system to conform to the NAIC model. Also, in conformance with the NAIC model, insurers must appoint agents when they contract with the intermediary or when they receive an application from the intermediary.

The NAIC model changes the information that OCI currently collects regarding possible problems encountered by insurers with agents. The model only requires insurers to categorize terminations as "Not for Cause" or "For Cause." This change adopts that procedure but still requires insurers to inform OCI in writing of the same possible problems encountered by the insurer as currently reported.

OCI licenses intermediary corporations or other "unnatural" persons on a voluntary basis but requires the licensing of all individuals in the firm who solicit insurance. (This corporate licensing is done primarily so that Wisconsin firms can get licensed in other states which require licensing in the corporation's resident state.) This rule broadens the definition of what entities can receive a "firm" license to conform to the NAIC model.

The GLBA requires that states accept either the NAIC model nonresident application (which OCI has done for many years) or the application that the nonresident originally submitted to their resident state. This rule conforms Wisconsin to this requirement. Specific NAIC standards for denial of licensure and defining "for cause" terminations by insurers are incorporated. A licensing requirement that an applicant is over age 18 is also added.

The definitions of some terms used to define when a license is required and exemptions to licensing are defined using the same language as the NAIC model. The exemptions to licensing in the model are very similar to the current exemptions contained in s. 628.02, Stats.

The reporting requirements of agents to inform OCI of administrative actions, criminal proceedings and lawsuits against the agent involving misrepresentation, fraud, theft etc, are conformed to the NAIC model and clarified to more clearly define the actions to be reported and what information must be submitted.

Since a new major line of authority called "Personal Lines" has been created in the NAIC model, prelicensing educational requirements are defined for this line. The continuing education requirements are defined for all the new major and limited lines of insurance created. Three new self study courses are listed as being recognized for continuing education. The requirements for crediting continuing education for courses taken to maintain an identified designation are clarified to allow this only for individuals who currently hold that designation.
