Department of Commerce
Emergency Rule Relating to Community Development Block Grant Program

Finding of Emergency and Rule Analysis

The Department of Commerce finds that an emergency exists and that adoption of the rule included in this order is necessary for the immediate preservation of public health, safety and welfare.

The facts constituting the emergency are as follows:

- Under the state's Consolidated Plan for the expenditure of U.S. Department of Housing and Urban Development Funds (HUD), the department has available Community Development Block Grant Funds specifically for community and economic development projects that typically are planned and designed during the winter months for commencement when the ground thaws.
- Having the ability to make these grants available at this time would assist eligible local governmental units with their project planning, obtain bids during a time when bids can be as much as 20 percent less than bids obtained in late winter or early spring, and allow for construction start-up early in the spring.
- Project readiness is a consideration in awarding grants under this program.
- Bid letting and contract approvals made prior to the construction season may allow for the completion of construction projects within one construction season.
- The acceptance and funding of applications at this time will provide an economic stimulus at the local government level in the form of planning, engineering and particularly construction contracts which offer high paying jobs.

This rule revision relates to changes in definitions which occurred in the 1999 Wisc. Act 9; additional program funds now available from U.S. Housing and Urban Development (HUD); revising the application schedule on a continuing basis; and updating the process of scoring applications.

Currently public facility grants to eligible communities are awarded annually. Under this proposal, grants can be awarded throughout the year making it easier for communities to prepare and submit their proposals.

The rule revisions reflect the expansion of funding programs for public facilities planning to issue grants to eligible local governments for public facilities planning up to \$12,500 per plan.

Pursuant to s. 227.24, Stats., this rule is adopted as an emergency rule to take effect upon publication in the official state newspaper and the filing with the Secretary of State and the Revisor of Statutes.

Analysis of Proposed Rules

Statutory authority: ss. 16.358, 560.04 and 560.045
Statutes interpreted: s. 560.045, Stats.

Under s. 560.045, Stats., the Department of Commerce has the responsibility of accepting and evaluating applications, and awarding grants. One mechanism of the Department in fulfilling this responsibility has been the promulgation of rules for the state community development block grant program, ch. Comm 108.

This rule revision relates to changes in definitions which occurred in the 1999 Wisc. Act 9; additional program funds now available from U.S. Housing and Urban Development (HUD); revising the application schedule on a continuing basis; and updating the process of scoring applications.

Currently public facility grants to eligible communities are awarded annually. Under this proposal, grants can be awarded throughout the year making it easier for communities to prepare and submit their proposals.

A number of definitions have been updated to reflect changes in Statutory citations, to include the complete definition as a Note for the user, and to clarify terms that may have been used interchangeably in the previous edition of the code.

The rule revisions reflect the expansion of funding programs for public facilities planning to issue grants to eligible local governments for public facilities planning up to \$12,500 per plan.

Some sections relating to the scoring of applications are being amended to reflect the intent of both the issue as well as staff experience with ranking applications.

Other minor revisions throughout the chapter relate to code clarification, Statutory notes, and rule format.
