Description Discharging a firearm in the direction of an electric transmission facility and providing a penalty					

Assumptions Used in Arriving at Fiscal Estimate

This bill creates a forfeiture and other penalty provisions for persons who intentionally discharge a firearm in the direction of an electric transmission facility.

It is impossible to predict how many such proceedings will be filed in the circuit court. This bill could require additional proceedings to determine whether the person has violated the statute and, in addition, to determine the appropriate amount of restitution to be ordered under the proposed s. 167.31 (3m)(d). Additional proceedings require additional judge, court reporter, and court staff time. These costs are borne by both the state and the county.

An accurate estimate of the additional costs is impossible with the data available, but it is likely to have a minor impact on the workload of the circuit courts.
