Description									
Notice regarding unauthorized acquisition of personal information									

Assumptions Used in Arriving at Fiscal Estimate

This bill requires an entity that possesses certain personal information about an individual to notify the individual when the information is accessed by a person who the entity has not authorized to do so.

The Department currently receives telephone calls and formal written complaints when the personal information held by an entity is lost or obtained by an unauthorized person. We anticipate the telephone calls and formal written complaints generated during such an incident will still be handled by DATCP.

As the bill does not require DATCP to administer or enforce this law, we do not foresee an increase in workload that would require additional funding.

Long-Range Fiscal Implications
