Fiscal Estimate Narratives CTS 2/14/2006

LRB Number 05-3878/1	Introduction Number	SB-569	Estimate Type	Original						
Description Deoxyribonucleic acid testing of criminals										

Assumptions Used in Arriving at Fiscal Estimate

This bill requires that any person who is sentenced or placed on probation for conviction of a fourth-degree sexual assault or the crime of exposing oneself to a child or causing a child to expose himself or herself must provide a biological specimen to the crime laboratories. The bill requires the crime laboratories to analyze the specimens and store DNA profiles from the specimens in the DNA data bank.

It is unlikely this bill's requirements will affect the number of these cases brought before the courts. The additional requirements of analyzing the specimens and storing the DNA profiles will be the responsibility of the Department of Justice. Therefore, it is estimated there will be no fiscal impact on the workload of the circuit courts from this change.

Long-Range Fiscal Implications
