Chairman's Notes: Senate Committee on Natural Resources and Transportation

April 21, 2005

✓ Assembly Bill 18 – Ainsworth/Olsen

Summary: This bill permits motor trucks having a gross weight rating of more than 26,000 pounds to be equipped with a flashing or rotating amber light that may be operated only when the motor truck is upon a highway having a maximum speed limit of more than 35 miles per hour and is traveling ten or more miles per hour below the speed limit, stopped, or backing up. Current law generally prohibits (with various exceptions such as safety vehicles) any vehicle from displaying any flashing or rotating light.

- ✓ What types of trucks would utilize this provision?
- How often would this be utilized – (we don't want them to become common place, thereby having motorists ignore flashing safety lights)

✓ Assembly Bill 38 – Friske/Olsen

Summary: This bill changes the penalty for persons who violate operating restrictions under a probationary license or an instruction permit. Under this bill, a person holding a probationary license or instruction permit who violates these operating restrictions must forfeit \$50 for a first offense and not less than \$50 nor more than \$100 for each subsequent offense. In addition, DOT must provide notice of the conviction to any adult sponsor of the person.

- ✓ Have any young adults that have violated the graduated drivers license law been given any jail time as a result of their offense.
- ✓ Are the organizations that supported passage of the graduated driver's license law supportive of this change?

✓ Assembly Bill 169 – Van Roy/Cowles

Summary: (As Amended) Creates an exception to the current law prohibition against operating double-decked buses. Also creates an exception to height restrictions. In order to qualify, the vehicles must have a closed roof and obtain the approval of the officer in charge of maintenance of each highway on the proposed route. The officer may not grant approval unless the vehicle clears all obstruction along the route by at least 6 inches and the operator agrees to accept liability for any damages.

- Under the bill, do local governments have the ability to prevent double-deck buses from operating in their jurisdiction, or must they allow them if they meet the criteria spelled out in the substitute amendment. Would it make sense to allow the governing body of a city, village, town or County to have the ability to make the determination as to whether or not double deck buses are allowed, instead of the officer in charge of maintenance?
- What would be the penalty if a double-deck bus that has the authority to operate on a proposed route veer off of that proposed route? Will drivers be notified that the law requires them to stay on the authorized route? Should we include such a provision in the bill?
- After a route is approved, does the "officer in charge of maintenance" have the authority to rescind that approval if something were to change? Should there be any type of periodic route check to ensure the route still meets the clearance requirements? (i.e. New power lines, trees growing over a roadway, new structure has been built, etc.)
- For State Patrol? Would the state patrol inspect all double deck buses prior to operation? Is there periodic inspection as well, such as once a year or once every few years?
?

Senate Bill 61 – Breske/Hines

Summary: This bill permits consecutive monthly registration of a motor truck, trailer, or truck tractor used exclusively to transport calcium chloride liquid.

- Can you tell the committee what calcium chloride liquid is used for, and the rationale for allowing them to register monthly?
- How many trucks across the state would this affect? What would the resulting revenue loss to the state be?

Senate Bill 139/Assembly Bill 209 – Harsdorf/Lothian/Suder

Summary: This bill directs the Department of Transportation to designate and, upon receipt of sufficient contributions from interested parties, mark the route of USH 14 in this state from the Wisconsin-Illinois border to Madison as the "Ronald Reagan Highway."

- The bill indicates that signs will not be erected until the state has received sufficient funds to cover the cost of erecting and maintaining them. Do you have any idea what this would cost, and if there are individuals out there that are willing to provide these contributions?

EXECUTIVE SESSION

Because all of the Committee members are not present, I would like to ask for unanimous consent to leave the roll open until 5:00 today for the absent members to vote.

Senate Bill 39 (With SSA 1)

Senate Bill 39 is authored by Senator Leibham and Representative Petrowski, and relates to creating a school transportation bio-diesel fuel cost assistance program.

We have a substitute amendment pending that has been drafted by the author of the bill. Legislative Council has prepared a memo on the Amendment which each of you should have received. Leg. Council, would you like to describe the Substitute amendment for the committee please.

- **MOTION TO ADOPT SSA 1 TO SB 39**
- **SECOND**
- **DISCUSSION**
- **ROLL CALL**

- **MOTION FOR PASSAGE OF SB 39 AS AMENDED**
- **SECOND**
- **DISCUSSION**
- **ROLL CALL**

Senate Bill 41 (With SA 1)

Senate Bill 41 is authored by Senator Cowles and Representative Ott, and relates to providing a definition of bio-diesel fuel and prohibits the mislabeling of bio-diesel fuel.

There is a simple amendment that has been introduced by the bill's author. The amendment establishes a July 1, 2007, effective date for the bill.

- **MOTION TO ADOPT SA 1 TO SB 41**
- **SECOND**
- **DISCUSSION**
- **ROLL CALL**

- **MOTION FOR PASSAGE OF SB 41 AS AMENDED**
- **SECOND**
- **DISCUSSION**
- **ROLL CALL**

Senate Bill 45

Senate Bill 45, authored by Senator Zien and Representative Suder, increases the maximum permissible overall length of the combination of vehicles from 60 feet to 65 feet if the middle vehicle in the three-vehicle combination is equipped with brakes.

- **MOTION FOR PASSAGE OF SB 45**
- **SECOND**
- **DISCUSSION**
- **ROLL CALL**

DO NOT GAVEL THE EXEC. SESSION CLOSED!
