RE: Proposed Administrative Rule **TRANS 276**
Notification of Legislative Standing Committees
CLEARINGHOUSE RULE 04-122

Dear Senator Leibham and Representative Ainsworth:

In accordance with the Department of Transportation's efforts to keep you informed of its ongoing rule making actions, enclosed is a courtesy copy of Final Draft rule **Trans 276**, relating to **allowing the operation of double bottoms and certain other vehicles on certain specified highways**, which is being submitted to the Legislature for committee review.

Sincerely,

A handwritten signature in cursive script that reads "Julie A. Johnson".

CR 04-122

The Wisconsin Department of Transportation proposes an order to amend TRANS 276.07(6); and create TRANS 276.07(31g), relating to allowing the operation of double bottoms and certain other vehicles on certain specified highways.

**REPORT OF THE DEPARTMENT OF TRANSPORTATION
ON THE FINAL RULE DRAFT**

This report is submitted to the presiding officers of the Senate and Assembly for referral to the appropriate standing committees. The report consists of the following parts:

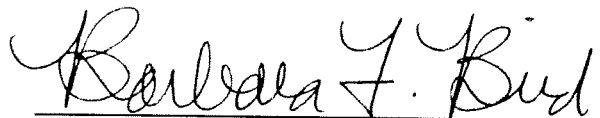

Part 1--Analysis prepared by the Department of Transportation.

Part 2--Rule text in final draft form.

Part 3--Recommendations of the Legislative Council.

Part 4--Analysis prepared pursuant to the provisions of s. 227.19(3), Stats.

Submitted by:

BARBARA F. BIRD
Assistant General Counsel
Office of General Counsel
Department of Transportation
Room 115-B, Hill Farms State
Transportation Building

PART 1

Analysis Prepared by the Wisconsin Department of Transportation

STATUTORY AUTHORITY: ss. 85.16(1) and 348.07(4), Stats.

STATUTE INTERPRETED: s. 348.07(4), Stats.

Plain Language Analysis and Summary of, and Preliminary Comparison with, Existing or Federal Regulation. In the Surface Transportation Assistance Act of 1982 (STAA), the federal government acted under the Commerce clause of the United States Constitution to provide uniform standards on vehicle length applicable in all states. The length provisions of STAA apply to truck tractor-semitrailer combinations and to truck tractor-semitrailer-trailer combinations. (See Jan. 6, 1983, Public Law 97-424, § 411) The uniform standards provide that:

- No state shall impose a limit of less than 48 feet on a semitrailer operating in a truck tractor-semitrailer combination.
- No state shall impose a length limit of less than 28 feet on any semitrailer or trailer operating in a truck tractor-semitrailer-trailer combination.
- No state may limit the length of truck tractors.
- No state shall impose an overall length limitation on commercial vehicles operating in truck tractor-semitrailer or truck tractor-semitrailer-trailer combinations.
- No state shall prohibit operation of truck tractor-semitrailer-trailer combinations.

The State of Wisconsin complied with the federal requirements outlined above by enacting 1983 Wisconsin Act 78 which amended § 348.07(2), Stats., and § 348.08(1), Stats. This act created §§ 348.07(2)(f), (fm), (gm) and 348.08(1)(e) to implement the federal length requirements. In 1986 the legislature created § 348.07(2)(gr), Stats., to add 53 foot semitrailers as part of a two vehicle combination to the types of vehicles that may operate along with STAA authorized vehicles. (See 1985 Wisconsin Act 165)

The vehicles authorized by the STAA may operate on the national system of interstate and defense highways and on those federal aid primary highways designated by regulation of the secretary of the United States Department of Transportation. In 1984 the USDOT adopted 23 CFR Part 658 which in Appendix A lists the highways in each state upon which STAA authorized vehicles may operate. Collectively these highways are known as the National Network. In 1983 Wisconsin Act 78, the legislature enacted § 348.07(4), Stats., which directs the Wisconsin Department of Transportation to adopt a rule designating the highways in Wisconsin on which STAA authorized vehicles may be operated consistent with federal regulations.

The Department of Transportation first adopted ch. Trans 276 of the Wisconsin Administrative Code in December of 1984. The rule is consistent with 23 CFR Part 658 in that the Wisconsin rule designates all of the highways in Wisconsin that are listed in 23 CFR Part 658 as part of the National Network for STAA authorized vehicles. The federal regulation does not prohibit states from allowing operation of STAA authorized vehicles on additional state highways. The rule making authority granted to the Wisconsin

Department of Transportation in § 348.07(4), Stats., allows the DOT to add routes in Wisconsin consistent with public safety. The rule making process also provides a mechanism to review requests from businesses and shipping firms for access to the designated highway system for points of origin and delivery beyond 5 miles from a designated route. A process to review and respond to requests for reasonable access is required by 23 CFR Part 658.

This rule amends Trans 276.07(6) and creates Trans 276.07(31g), Wisconsin Administrative Code, to add four segments of highway to the designated highway system established under s. 348.07(4), Stats. The actual highway segments¹ that this rule adds to the designated highway system are:

<u>Hwy.</u>	<u>From</u>	<u>To</u>
STH 27	STH 171 at Mt. Sterling	USH 14 S. of Viroqua
CTH S	CTH B	7258 CTH S
CTH B	USH 53	CTH S
CTH P	USH 2	CTH B

The long trucks to which this rule applies are those with 53-foot semitrailers, double bottoms and the vehicles which may legally operate on the federal National Network, but which exceed Wisconsin's regular limits on overall length. Generally, no person may operate any of the following vehicles on Wisconsin's highways without a permit: A single vehicle with an overall length in excess of 40 feet², a combination of vehicles with an overall length in excess of 65 feet, a semitrailer longer than 48 feet, an automobile haulaway longer than 66 feet plus allowed overhangs, or a double bottom. Certain exceptions are provided under s. 348.07(2), Stats., which implements provisions of the federal Surface Transportation Assistance Act in Wisconsin.

The effect of this rule will be to extend the provisions of s. 348.07(2)(f), (fm), (gm) and (gr), and s. 348.08(1)(e), Stats., to the highway segments listed above. As a result, vehicles which may legally operate on the federal National Network in Wisconsin will also be allowed to operate on the newly-designated highways. Specifically, this means there will be no overall length limitation for a tractor-semi-trailer combination, a double bottom or an automobile haulaway on the affected highway segments. There also will be no length limitation for a truck tractor or road tractor when operated in a tractor-semi-trailer combination or as part of a double bottom or an automobile haulaway. Double bottoms will be allowed to operate on the affected highway segments provided neither trailer is longer than 28 feet, 6 inches. Semitrailers up to 53 feet long may also be operated on

¹ The rule text often achieves these objectives by consolidating individual segments into contiguous segments with new end points. In order to determine the actual highway segment added, it is necessary to compare the combined old designations with the combined new designation.

² 45-foot buses are allowed on the National Network and Interstate system by Federal law. Section 4006(b) of the Intermodal Surface Transportation Efficiency Act of 1991.

these highway segments provided the kingpin to rear axle distance does not exceed 43 feet. This distance is measured from the kingpin to the center of the rear axle or, if the semitrailer has a tandem axle, to a point midway between the first and last axles of the tandem. Otherwise, semitrailers, including semitrailers which are part of an automobile haulaway, are limited to 48 feet in length.

These vehicles and combinations are also allowed to operate on undesignated highways for a distance of 5 miles or less from the designated highway in order to reach fuel, food, maintenance, repair, rest, staging, terminal or vehicle assembly or points of loading or unloading.

Comparison with Rules in Adjacent States: None of the states adjacent to Wisconsin (Michigan, Minnesota, Illinois and Iowa) have administrative rules relating to long truck routes in their states.

Summary of Factual Data and Analytical Methodologies Used and How the Related Findings Support the Regulatory Approach Chosen: Due to the federal requirement that requests for access to the designated highway system in a state be decided within 90 days of the request, a proposed rule making to add requested routes is initiated without investigation. The public hearing and Department investigation undertaken in preparation for the hearing provide the engineering and economic data needed to make a final decision on whether to withdraw the proposal or proceed to final rule making.

Effect on Small Business and, If Applicable, Any Analysis and Supporting Documentation Used to Determine Effect on Small Businesses: The provisions of this rule adding highway segments to the designated system have no direct adverse effect on small businesses, and may have a favorable effect on those small businesses which are shippers or carriers using the newly-designated routes.

Fiscal Effect and Anticipated Costs Incurred by Private Sector: The Department estimates that there will be no fiscal impact on the liabilities or revenues of any county, city, village, town, school district, vocational, technical and adult education district, sewerage district, or federally-recognized tribes or bands. The Department estimates that there will be no fiscal impact on state or private sector revenues or liabilities.

Copies of Proposed Rule: Copies of this proposed rule are available without cost upon request to the office of the State Traffic Engineer, P. O. Box 7986, Room 501, Madison, Wisconsin, 53707-7986, telephone (608) 266-1273, or via e-mail: ashwani.sharma@dot.state.wi.us. For questions about this rule making, please call Ashwani Sharma, Traffic Operations Engineer at (608) 266-1273. Alternate formats of the proposed rule will be provided to individuals at their request.

PART 2 **TEXT OF PROPOSED RULE**

SECTION 1. Trans 276.07(6) is amended to read:

	<u>Route</u>	<u>From</u>	<u>To</u>
Trans 276.07(6)	STH 25	Minnesota Line	STH 48
	STH 26	IH 90 at Janesville	USH 151 S.E. of Waupun
	STH 26	USH 151 N.E. of Waupun	USH 41 S.W. of Oshkosh
	STH 27	USH 18 in Prairie du Chien	STH 171 at Mt. Sterling <u>USH 14 S. of Viroqua</u>
	STH 27	USH 14 S.E. of Viroqua	STH 40 in Radisson
	STH 28	STH 33 in Horicon	IH 43 in Sheboygan
	STH 29	USH 10 in Prescott	STH 35 in River Falls
	STH 29	IH 94 W. of Elk Mound	USH 53 at Chippewa Falls
	STH 29	124 S. of Chippewa Falls	USH 41 in Green Bay
	STH 29	USH 141 at Bellevue	STH 42 in Kewaunee

SECTION 2. Trans 276.07(31g) is created to read:

Trans 276.07(31g)	DOUGLAS COUNTY:		
	CTH B	USH 53	CTH S
	CTH P	USH 2	CTH B
	CTH S	CTH B	7258 CTH S

(END OF RULE TEXT)

Effective Date. This rule shall take effect on the first day of the month following publication in the Wisconsin Administrative Register as provided in s. 227.22(2)(intro.), Stats.

Signed at Madison, Wisconsin, this 14th day of **December**, 2004.

LEGISLATIVE COUNCIL RULES CLEARINGHOUSE REPORT

This rule has been reviewed by the Rules Clearinghouse. Based on that review, comments are reported as noted below:

1. STATUTORY AUTHORITY [s. 227.15 (2) (a)]
Comment Attached YES NO
2. FORM, STYLE AND PLACEMENT IN ADMINISTRATIVE CODE [s. 227.15 (2) (c)]
Comment Attached YES NO
3. CONFLICT WITH OR DUPLICATION OF EXISTING RULES [s. 227.15 (2) (d)]
Comment Attached YES NO
4. ADEQUACY OF REFERENCES TO RELATED STATUTES, RULES AND FORMS [s. 227.15 (2) (e)]
Comment Attached YES NO
5. CLARITY, GRAMMAR, PUNCTUATION AND USE OF PLAIN LANGUAGE [s. 227.15 (2) (f)]
Comment Attached YES NO
6. POTENTIAL CONFLICTS WITH, AND COMPARABILITY TO, RELATED FEDERAL REGULATIONS [s. 227.15 (2) (g)]
Comment Attached YES NO
7. COMPLIANCE WITH PERMIT ACTION DEADLINE REQUIREMENTS [s. 227.15 (2) (h)]
Comment Attached YES NO

PART 4
CR 04-122

ANALYSIS OF FINAL DRAFT OF TRANS 276

(a) **Basis and Purpose of Rule.** Federal law requires the Department of Transportation to react within 90 days to requests for changes to the long truck route network. Wisconsin state law requires that the Department use the administrative rule process to make changes to the long truck route network. Chapter Trans 276 is the existing rule designating the long truck network. The Department has received a request from Ralph Hamel Forest Products, Inc., in Vesper, WI, and Lemone Transfer of Lake Nebagamon, WI, to add four highway segments.

In determining to designate the highway segment identified in Part 1 of this Final Draft Report, the Department has considered the factors of safety, economics, energy savings, industry productivity and competition as required by s. 348.07(4), Stats. The above factors were found to justify the designation of the following highway segments:

<u>Hwy.</u>	<u>From</u>	<u>To</u>
STH 27	STH 171 at Mt. Sterling	USH 14 S. of Viroqua
CTH S	CTH B	7258 CTH S
CTH B	USH 53	CTH S
CTH P	USH 2	CTH B

The Department's investigation showed the following summary findings:

The Department's District 5 office in LaCrosse states: "I don't see a major problem with this section of highway 27. It has a narrow shoulder on sections and a few 40 mph curves but for the most part it is a pretty good road. We are currently fixing a bad area around CTH C; this project is removing several bad curves."

The Department's District 8 office in Superior states: "These three county trunk highways (CTH S, CTH B and CTH P) are narrow with no shoulders and have some tight turns and would probably not be an optimum route for long trucks."

The Department's State Patrol District 7 in Spooner states: "...these highways (CTH S, CTH B and CTH P) have NO shoulders on them and have sharp curves in some locations. ...having long trucks traveling through the Village of Lake Nebagamon would be hard to handle. For safety reasons, this would not be a good request. Operational wise, it would cause more problems for us, and would only benefit Lemone."

(b) **Modifications as a Result of Testimony at Public Hearing.** The public hearing was held in LaCrosse on December 1, 2004. No modifications were made to the proposed rule as a result of testimony at the hearing.

(c) **List of Persons who Appeared or Registered at Public Hearing.** No persons appeared or registered at the hearing.

(d) **Summary of Public Comments and Agency Response to those Comments:** The written comment period was held open until close of business December 1, 2004, for persons not able to attend the hearing. Written comments were received from Paul Halverson, Douglas County Highway Commissioner in support of the designation of CTH S from CTH B to 7258 CTH S; CTH B from USH 53 to CTH S; and CTH P from USH 2 to CTH B. Based on positive comments received on these county trunk highways from the Douglas County Highway Department, which is the owner and operating authority of these county roads, the Department is proceeding with the designation of the requested four highway segments based on Douglas County's willingness to support the designation of these county roads.

A phone call was also received from Sheriff Bob Ostrander, Crawford County (608-326-0200). Sheriff Ostrander is against designating STH 27 from STH 171 at Mt. Sterling to USH 14 S. of Viroqua for safety reasons. The Department is proceeding with the designation of the requested highway segment based on its own investigation as stated in par. (a) above.

(e) **Explanation of any Changes Made to the Plain Language Analysis or Fiscal Estimate:** No changes made.

(f) **Response to Legislative Council Recommendations.** The Legislative Council report contained no recommendations to the proposed rule.

(g) **Final Regulatory Flexibility Analysis.** The provisions of this proposed rule adding highway segments to the designated system have no direct adverse effect on small businesses, and may have a favorable effect on those small businesses that are shippers or carriers using the newly-designated routes.
