### Assumptions Used in Arriving at Fiscal Estimate

This is an omnibus bill that makes changes in the state's emergency management system. Only a small portion of the bill – that dealing with school computation days -- affects K-12 education.

Current law provides that no state aid may be paid to a school district that fails to hold school for at least 180 days each year, with the days to be computed in accordance with s. 115.01 (10). That latter statute provides that school days are days on which school is actually taught and also include the following: (1) days on which school is closed by order of the school district administrator because of inclement weather and days on which parent-teacher conferences are held, not to exceed 5 days during the school term; and (2) days on which school is closed by order of a local health officer.

This bill also includes days on which school is closed by order of the state department of health services. In addition, it includes days on which school is closed by order of the school district administrator because of a threat to the health or safety of pupils or school personnel (but not including inclement weather, which is covered by current law).

The provisions of the bill relating to school computation days would require the department to revise PI 8. It is assumed that the cost of doing so could be absorbed by the department. The bill will not affect the total amount of state school aid paid.
