Description

Applicability of the prevailing wage law; the thresholds for applicability of that law; calculation of the prevailing wage rate; the treatment of volunteers, truck drivers, subjourneypersons, and incidental work under that law; the submission to the Department of Workforce Development of payroll records of persons performing work that is subject to that law; the inspection of those records; and the remedies for a violation of that law

Assumptions Used in Arriving at Fiscal Estimate

The State Public Defender (SPD) is statutorily authorized and required to appoint attorneys to represent indigent defendants in criminal and certain commitment proceedings. The SPD plays a major role in ensuring that the Wisconsin justice system complies with the right to counsel provided by both the state and federal constitutions. Any legislation has the potential to increase SPD costs if it creates a new criminal offense, expands the definition of an existing criminal offense, or increases the penalties for an existing offense.

This bill, which modifies current prevailing wage law, does none of the above, nor would it have any effect on SPD operations. Therefore, it would have no fiscal effect for the agency.

Long-Range Fiscal Implications
