Description establishing an assistant district attorney pay progression plan		

Assumptions Used in Arriving at Fiscal Estimate

This substitute amendment establishes a pay progression for assistant district attorneys (ADAs). There would be 17 hourly salary steps, with each equal to 1/17 (approximately \$1.973/hour) of the difference between the lowest hourly salary rate and the highest hourly salary rate for the ADA salary range.

Effective the first pay period that occurs on or after July 1, 2013, each ADA with at least 12 months service and who is not paid at the pay range maximum, will be moved to the salary step that is immediately above their hourly salary on June 30, 2013. The cost for FY14 would be approximately \$916,805. This figure was calculated by determining the difference between each ADA's hourly rate of pay and the closest but higher pay step, then multiplying this amount by 2088 hours times 347.95 FTE. In addition, the variable fringe rate of 14.65% (retirement, Social Security/Medicare, and sick leave conversion) must be included in the estimate. $\$916,805 \times 14.65\% = \$134,312$. The total FY14 estimate is approximately \$1,051,117.

In FY15, the salary and fringe benefit cost to continue the step granted in FY14 equates to an amount equal to that of FY14, or \$1,051,117.

Effective the first pay period that occurs on or after July 1, 2014, all ADAs who have served for at least 12 months and who are not paid at the pay range maximum, may, at the discretion of the district attorney (DA), be paid an hourly salary at any step, or part thereof, above their hourly salary on the preceding June 30. There is no model to determine the pay increases that DAs may award; however, it is anticipated that DAs would grant most ADAs more than one pay step. No salary increase for an ADA may exceed 10% of his or her base pay during a fiscal year, as stated in s.230.12(5)(d), Wis. Stats. Because it is uncertain what pay increases DAs may award to ADAs, it is difficult to estimate what the potential cost of this provision could be; consequently, such an estimate is indeterminate.

Approximately 83% of ADA positions are GPR-funded; and, approximately 17% are program revenue-funded.

Long-Range Fiscal Implications

Should this bill be enacted, it is anticipated that there would be a significant long-term fiscal impact on the DA budget. Please see estimates provided above.
