| Description The dairy and livestock farm investment credits | | | | | |

Assumptions Used in Arriving at Fiscal Estimate

Under current law, a taxpayer may claim an income and franchise tax credit for amounts paid for dairy or livestock farm modernization and expansion for taxable years beginning after December 31, 2003 and before January 1, 2012. This bill extends the credit to taxable years beginning before January 1, 2017.

Fiscal Estimate

Based on a review of individual and corporate tax returns that claimed the credit, the bill would result in a reduction in revenue of an estimated \$1.2 million in FY 2013 and \$2.7 million in FY 2014. Because of the large credit carryforwards relative to credit amounts claimed, it is estimated that the bulk of the fiscal effect from the bill be experienced in fiscal years 2019 through 2028.

Long-Range Fiscal Implications

The bill would result in estimated revenue reductions of the following amounts:

FY 2015: \$4.1 million
FY 2016: \$5.6 million
FY 2017: \$6.5 million
FY 2018: \$7.9 million
FY 2019: \$9.4 million
FY 2020: \$10.8 million
FY 2021: \$12.8 million
FY 2022: \$12.8 million
FY 2023: \$10.8 million
FY 2024: \$9.4 million
FY 2025: \$7.9 million
FY 2026: \$6.5 million
FY 2027: \$5.0 million
FY 2028: \$1.9 million
