Fiscal Estimate Narratives DOR 5/22/2013

LRB Number 13-2168/1	Introduction Number	AB-0186	Estimate Type	Original			
Description							
Police and fire protection fee imposed on certain communications services							

Assumptions Used in Arriving at Fiscal Estimate

Under current law, the state imposes a police and fire protection fee. Communication service providers must charge a monthly fee of \$0.75 on each communication service connection (telephone, cellular phone, VoIP service) and providers or retailers must charge a fee of \$0.38 for a prepaid wireless plan. The Department of Revenue collects the police and fire protection fee on behalf of the Public Service Commission. The fee is deposited into the police and fire protection fund, which partially supports shared revenue payments to counties, towns, villages, and cities by paying a portion of county and municipal aid.

The bill would repeal the police and fire protection fee and eliminates the police and fire protection fund. Since the bill does not reduce the overall level of county and municipal aid, the decrease in the SEG appropriation for police and fire protection is offset by a corresponding increase in the sum sufficient appropriation for county and municipal aid. The bill also eliminates the SEG appropriation related to the administration of the police and fire protection fee.

Under 2013 AB 40, the FY15 appropriation for county and municipal aid paid by the police and fire protection fee is \$53,000,000 and the GPR appropriation for county and municipal aid is \$695,075,700.

The fiscal effect of the bill is dependent on the effective date. Assuming the bill fully eliminates the police and fire protection fee for FY15, the bill would eliminate the \$53,000,000 million SEG appropriation for paying a portion of county and municipal aid, thereby increasing the GPR county and municipal aid appropriation by \$53,000,000 to \$748,075,700. The elimination of the SEG appropriation related to administering the police and fire protection fee would result in a further SEG expenditure decrease of \$166,600 on an annual basis.

If the bill eliminates more than one year of police and fire protection fee revenue for county and municipal aid during the 2013-15 biennium, the GPR impacts of the bill for the biennium will be greater than the \$53,000,000 specified above.

The bill is effective the day after publication.

Long-Range Fiscal Implications
