#### Description

Amount of an academic excellence higher education scholarship, the number of those scholarships that may be awarded in an academic year, the eligibility criteria for those scholarships, creating an individual income tax credit for certain academic scholarship recipients, and making an appropriation

#### Assumptions Used in Arriving at Fiscal Estimate

Based on the 13-14 enrollment of WI high schools 445 scholarships would be available to high school seniors. Tuition and fees at the UW-Madison is \$10,402 and this bill provides an award of half of their tuition. The assumption would be that the academic year award would be \$5,201 per year. If this bill is implemented in the 14-15 academic year the freshman cost for the scholarship would be \$2,314,445. The total cost for the program which would include the previous scholars as the assumption is that the original Academic Excellence Scholars would be able to continue their scholarship for the 14-15 academic year would be \$4,930,070. An increase of \$1,620,770 would need to be provided to cover the state cost of the scholarship since the appropriation is \$3,309,300.

If the scholarship was raised from the current value of \$2,250 (half coming from the state and the other half funded through the institution) to \$4,500 and keeping the current statutes and rules the total cost to the state for the 14-15 academic year would be \$6,750,000.

#### **Long-Range Fiscal Implications**

Assuming that the present Academic Excellence scholars are able to comtinue their scholarships the cost for the 15-16 academic year would be \$6,387,265; for the 16-17 academic year the cost would be \$7,760,085; 17-18 academic year the cost would be \$9,257,780. This proposal includes an additional two semesters of eligibility over the present eight semesters - the 18-19 academic year costs could potentially be \$10,297,980.
