Description Exemption from the prevailing wage law for a public works project that is intended to facilitate the reuse of a vacant or underutilized industrial facility					

Assumptions Used in Arriving at Fiscal Estimate

This bill will exempt projects of public works from the prevailing wage laws if the projects are intended to facilitate the reuse of a vacant or underutilized industrial facility.

If "vacant or underutilized industrial facility" is interpreted in the narrow sense we believe is intended, there should be only a slight decrease in the number of project determinations issued each year, and thus only a very small decrease in workload for the the Equal Rights Division. The Division may see a corresponding increase in workload when projects that are considered exempt by project owners are alleged not to meet these criteria. The offset can be met by existing staff and resources.

Costs will likely decrease to local units of government and state agencies that are the beneficiaries of these projects.

Long-Range Fiscal Implications
