Description prohibiting preexisting condition exclusion and setting rates or cost sharing based on preexisting conditions					

Assumptions Used in Arriving at Fiscal Estimate

The bill prohibits the Group Insurance Board from offering a plan that does the following:

- imposes a preexisting condition exclusion;
- reduces or denies a claim or loss incurred or disability commencing under the policy on the grounds that a disease or physical condition existed prior to the effective date of the coverage; or
- considering whether an individual or dependent has a preexisting condition for the purpose of setting deductibles, copays, or coinsurance under the plan.

This would maintain current practice and should not have a fiscal impact on the group health insurance program administered by the Department of Employee Trust Funds.
