LRB Number 17-5279/1	Introduction Number SB-006 (JR8)	Estimate Type Original
Description payments based on performance for Wisconsin Works and FoodShare employment and training program contractors		

Assumptions Used in Arriving at Fiscal Estimate

Current law requires the Department of Children and Families (DCF) to establish performance standards for administration of the Wisconsin Works (W-2) program. If a W-2 agency does not meet the performance standards established, DCF may withhold or recover any or all payment from the agency. The department is required to base any performance bonus calculation made for W-2 agencies on all of the following criteria:

- Placement of participants in W-2 employment positions into unsubsidized employment;
- Whether a participant's unsubsidized employment placement is full-time or part-time;
- The job retention rate, as defined by DCF, of former W-2 employment position participants;
- Wages and benefits earned by former W-2 employment position participants;
- Appropriate implementation of W-2;
- Customer satisfaction.

The bill requires DCF to create and implement a performance-based system for W-2 contracts, with performance standards based on the aforementioned six criteria. The bill retains the current law prohibition against DCF basing any performance bonus payments on caseload decreases or reduced spending by the W-2 agency that are not directly attributable to placing participants in unsubsidized employment. The bill also clarifies that the job retention rate criterion is to be measured at periodic intervals after placement. Changes under the bill would first apply to contracts entered into or renewed on the effective date of the bill.

The department does not anticipate a fiscal effect from the changes under the bill because current W-2 agency contracts already have funding for agencies that is only available on a performance basis. Performance payment budgets for W-2 agencies are based on process outcomes, such as timely processing of Emergency Assistance applications and meeting work participation rate targets, as well as performance outcomes relating to job attainment and retention targets.

Any changes resulting from the bill on W-2 agency contract performance payments would be included in the CY2019 contracts.

Long-Range Fiscal Implications
