## Fiscal Estimate Narratives

<b>Description</b> privacy and security of customer information obtained by a broadband Internet access service provider and providing a criminal penalty		

### Assumptions Used in Arriving at Fiscal Estimate

The Commission does not anticipate a state fiscal effect. There is concern that this legislation may impact our broadband mapping and demand survey efforts. While the maps use speeds/coverage data advertised by the providers, rather than customer information, this should not have an impact. Customer supplied information the Commission receives comes from voluntary surveys it conducts, not from internet service providers (ISPs). If the Commission received any information from ISPs about customers, SB-233 would impact that as there is not a specific exemption for supplying information to the Commission.

### Long-Range Fiscal Implications
