Description on-bill financing of energy improvements and granting rule-making authority					

Assumptions Used in Arriving at Fiscal Estimate

2023 AB 832 requires the Public Service Commission to establish and implement a program under which a public utility may finance energy improvements at a specific dwelling for a residential customer. The cost may be recovered through a surcharge periodically placed on the customer's account. The work associated with establishing and implementing this program can be absorbed with existing staff resources. There would be no fiscal effects to the Commission as a result of this bill.

Long-Range Fiscal Implications
