CLEARINGHOUSE RULE 15-016

Comments

[NOTE: All citations to “Manual” in the comments below are to the Administrative Rules Procedures Manual, prepared by the Legislative Reference Bureau and the Legislative Council Staff, dated December 2014.]

2. Form, Style and Placement in Administrative Code

In SECTION 2 of the proposed rule, “SPS” should appear in the cross-reference to “s. 361.03 (14) (a)”. [s. 1.07 (2), Manual.]

5. Clarity, Grammar, Punctuation and Use of Plain Language

a. In the plain language analysis, the description of IMC section 502.16 does not mention that the requirements also apply to repair garages that service hydrogen-fueled vehicles. The agency should consider clarifying this description.

b. In the plain language analysis, the description of IFC section 2211.7 does not mention that the exception also applies to hydrogen-fueled vehicles. The agency should consider clarifying this description.

c. The plain language analysis uses the terms “minor repair garage” and “major repair garage”, but the terms are not defined in the sections of the IMC or the IFC that are cited by the agency. The agency should consider clarifying these terms.

d. In the plain language analysis, the agency states that adopting IFC section 2211.7 will provide certain minor repair garages with an exemption from the requirements of IMC section 502.16, but the language in IFC section 2211.7 provides an exception from the requirements of IFC section 2211, not IMC section 502.16. The agency should consider clarifying how IFC section 2211.7 provides an exception from IMC section 502.16.
