

ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD AMENDING AND REPEALING AND RECREATING RULES

The Wisconsin Natural Resources Board proposes an order to amend ss. NR 10.05(1), 10.13(1)(b)2., 10.145(4)(a), and 45.09(2), and to repeal and recreate ss. NR 10.29 and 10.30, correcting management unit boundaries, clarifying trapping requirements, correcting cross-references, and update rules on the identification of tree stands on state lands.

WM-02-06

Analysis Prepared by the Department of Natural Resources

Statutory Authority and Explanation: Statutes that authorize the promulgation of this rule order include sections 29.014 and 227.11, Stats. These sections grant rule making authority to the department to establish and maintain open and closed seasons for hunting and that all rules promulgated under this authority are subject to review under ch. 227, Stats.

Statutes Interpreted and Explanation: In promulgating this rule, section 29.014, Stats., has been interpreted as providing the department with the authority to make these housekeeping clarifications.

Related Statute or Rule: None.

Plain Language Rule Analysis: These hunting and trapping-related rule changes are minor and non-controversial in nature. The intent of these rule changes is to provide clarification to existing rules, simplify regulations, and update administrative code language and references. Specifically, these rules will correct management unit boundaries, clarify trapping requirements, correct cross-references, and update rules on the identification of tree stands on state lands resulting from a change requested by the legislature in 2005.

Federal Regulatory Analysis: Provided state rules and statutes do not relieve individuals from the restrictions, requirements and conditions of federal statutes and regulations, regulation of hunting and trapping of native species has been delegated to state fish and wildlife agencies. Additionally, none of the proposed rules exceed the authorities granted the states in 50 CFR 10.

State Regulatory Analysis: These housekeeping rule changes do not represent policy or significant rule changes that may differ from surrounding states. All surrounding states have regulations and rules in place for the management of wild upland, migratory and trapping species, however these proposed rule changes to the Wisconsin Administrative code are not relevant to or comparable to any known similar housekeeping initiatives in our surrounding states.

Summary of Factual Data and Analytical Methodologies: This rule order is based solely on the need to correct inconsistencies created through the promulgation of other rules and statutes and to serve as a vehicle to provide clarification to existing code.

Anticipated Private Sector Costs: These rules, and the legislation which grants the department rule making authority, do not have a significant fiscal effect on the private sector. Additionally, no significant costs are associated with compliance to these rules.

Effects on Small Businesses: These rules are applicable to individual sportspersons and impose no compliance or reporting requirements for small businesses, nor are any design or operational standards contained in the rule.
