

**PROPOSED ORDER OF THE OFFICE OF THE COMMISSIONER OF INSURANCE
AND THE
BOARD OF GOVERNORS OF THE INJURED PATIENTS AND FAMILIES COMPENSATION
FUND
AMENDING, AND REPEALING AND RECREATING A RULE**

The office of the commissioner of insurance and the board of governors of the injured patients and families compensation fund propose an order to repeal and recreate s. Ins 17.25 (12m) and Ins 17.28 (6s), Wis Adm Code, relating to fund peer review surcharge rates for the injured patients and families compensation fund and for the wisconsin health care liability insurance plan and may have an effect on small business.

ANALYSIS PREPARED BY THE OFFICE OF THE COMMISSIONER OF INSURANCE (OCI)

- 1. Statutes interpreted:** ss. 655.27 (3), and 619.04 (5m), Wis Stats.
- 2. Statutory authority:** ss. 601.41 (3), 619.04 (5m) and 655.27 (3) (bg), Wis Stats.
- 3. Explanation of the OCI's authority to promulgate the proposed rule under these statutes:**

The commissioner of insurance, with the approval of the board of governors (board) of the injured patients and families compensation fund (fund) and the Wisconsin health care liability insurance plan (plan), is required to establish by administrative rule the surcharge rates which may be applied to a health care provider's annual fund fee, and provider annual premium if participating in the plan, based upon recommendations from the fund's peer review council.

4. Related Statutes or rules:

None.

5. The plain language analysis and summary of the proposed rule:

This rule establishes the surcharge rates which a health care provider may be required to pay to the fund or the plan. These surcharge rates are based upon the number of claims paid on behalf of a health care provider in addition to the dollar amount of those claims. Paid claim reports are reviewed by the fund's peer review council, and, if deemed appropriate, the council makes a recommendation to the board of governors to assess a surcharge to the health care provider for their coverage under the fund. The board approved these surcharge rates at its meeting on December 14, 2005, based on the recommendation of the board's actuarial and underwriting committee and reports of the fund's actuaries.

6. Summary of and preliminary comparison with any existing or proposed federal regulation that is intended to address the activities to be regulated by the proposed rule:

To the fund board's and OCI's knowledge there is no existing or proposed federal regulation that is intended to address patient compensation fund rates, administration or peer review activities.

7. Comparison of similar rules in adjacent states as found by OCI:

To the fund board's and OCI's knowledge there are no similar rules in the adjacent states to compare this rule to as none of these states have a patients compensation fund peer review council created by statute where rates are directed to be established yearly by rule as is true in Wisconsin.

8. A summary of the factual data and analytical methodologies that OCI used in support of the proposed rule and how any related findings support the regulatory approach chosen for the proposed rule:

None. This rule establishes peer review surcharge rates pursuant to the requirements of the above-noted Wisconsin statutes.

9. Any analysis and supporting documentation that OCI used in support of OCI's determination of the rule's effect on small businesses under s. 227.114:

The effect to small business would be minimal. The surcharge is applied only to individual health care providers. The only effect to small business would be if a surcharge was imposed upon a health care provider who was employed by a small business which paid medical malpractice insurance premium on the provider's behalf.

10. If these changes may have a significant fiscal effect on the private sector, the anticipated costs that will be incurred by private sector in complying with the rule:

The effect to small business would be minimal as stated in number 9 above .

11. A description of the Effect on Small Business:

This rule will have very little effect on small businesses.

Private Sector Fiscal Analysis**

for Rule Ins 17.25 (12m) and 17.28 (6s) peer review surcharge rates relating to annual injured patients and families compensation fund fees and wisconsin health care liability insurance plan premium rates

The changes in the surcharge rates promulgated by this rule do not result in a significant fiscal effect on the private sector. The cost of fund coverage is a very small portion of the expenses incurred by health care providers. The plan insures a relatively small number of health care provider, approximately 300, and therefore the potential for any significant impact is very minimal.

These surcharge rates have not been revised since the implementation of the peer review surcharge in the mid 1980's. Although a health care provider may pass any increase resulting from a surcharge on to its patients, there will not be a significant fiscal effect on the private sector as a result of this proposed rule.

Assumptions Used in Arriving at Fiscal Estimate

The Injured Patients and Families Compensation Fund (IPFCF or Fund) is a segregated fund. Annual Fund fees are established to become effective each July 1 based on actuarial estimates of the Fund's needs for payment of medical malpractice claims. Health care providers may have a surcharge levied on their fund fees based upon claims experience, pursuant to a recommendation by the Fund's Peer Review Council. The proposed revisions to the surcharge tables were approved by the Fund's Board of Governors at its December 14, 2005 meeting.

The Fund is a unique fund; there are no other funds like it in the country. The WI Fund provides unlimited liability coverage and participation is mandatory. These two features make this Fund unique compared to funds in other states. The only persons who will be affected by this rule change are the Fund participants themselves as the IPFCF is fully funded through assessments paid by Fund participants.

The Wisconsin Health Care Liability Insurance Plan was created by statute and is a licensed insurance company. The insurance operations are funded by premiums paid by insured health care providers.

There is no effect on GPR.
