

**ADMINISTRATIVE RULES
REPORT TO LEGISLATURE
CLEARINGHOUSE RULE CR-08-108**

By the Department of Health Services relating to ch. DHS 105, Provider Certification

Basis and Purpose of Proposed Rule

Section 49.45 (2) (a) 11., Stats., requires the Department to promulgate rules establishing criteria for certification of providers of medical assistance.

The Department proposes to amend ch. DHS 105 to allow federally recognized American Indian tribes or bands in Wisconsin to be certified by Wisconsin Medicaid as providers of personal care services. The proposed amendment would increase the number of providers available in Wisconsin to provide personal care services.

The Department believes that the proposed change is necessary in order to allow tribal government agencies to become personal care agencies, thereby providing tribal members access to culturally sensitive personal care providers in their own communities.

Rule Provision	Public Comment	Department Response
DHS 105.17 (1) (intro.)	The commenters support the proposal to add tribes to the list of organizations that may be certified to provide personal care services. (1, 2, 3, 4)	The Department appreciates the support for its rulemaking proposal expressed by the commenters.
DHS 105.17 (1) (intro.)	To avoid a potential shortage of personal care provider agencies as more counties move to Family Care, the Department should add an additional category of certified personal care providers. The new category of provider would be described as "a Wisconsin legal entity that meets the following requirements." The comment appears to refer to the requirements listed in the paragraphs which follow s. DHS 105.17 (1) (intro.). (1, 2)	The Department will not make a change at this time. A legislative solution to this issue is being sought through the biennial budget bill.
