GPR FED PRO PRS SEG SEG-S Assumptions Used in Arriving at Fiscal Estimate Background The Department of Agriculture, Trade and Consumer Protection (DATCP) administers Wisconsin's seed law
Background The Department of Agriculture, Trade and Consumer Protection (DATCP) administers Wisconsin's seed law
The Department of Agriculture, Trade and Consumer Protection (DATCP) administers Wisconsin's seed law
under ss. 94.38 to 94.46, Stats. The seed law regulates the labeling and sale of agricultural seed. The law applies to nearly all seed sold for sowing purposes, including crop seed, vegetable seed for home gardens,
lawn and turf seed, flower seed and native species seed. The law does not apply to tree or shrub seeds.
The 2009 biennial budget act (2009 Wis. Act 28) made significant changes to the seed law. Act 28 repealed
many outdated standards effective January 1, 2011 and authorized DATCP to establish new standards by rule. DATCP adopted a temporary emergency rule to implement the new law, pending the adoption of this
"permanent" rule. This "permanent" rule is identical to the emergency rule.
This will establish as standards values of the second requirestion, and evel we time and testing
This rule establishes standards related to seed labels, seed germination, and seed evaluation and testing. This rule incorporates, without change, seed labeler license fees set by s. 94.43, Stats. (this rule does not
increase license fees). This rule will not change seed program costs or revenues.
Impact of the Proposed Rule on State Government
The proposed rule will have no fiscal impact on state government.
Impact of the Proposed Rule on Local Government
The proposed rule will have no fiscal impact on local government.
