Policy Problem Addressed by the Rule					
2009 Act 356 created a definition for deceptive practices which further clarifies what constitutes deceptive advertising. The new definition includes a list of specified types of representation or materials which are considered deceptive advertising if they are misleading, false or untruthful. The Act also amends deceptive practices as a basis for professional discipline by eliminating the words false and misleading which are now included in the new definition. This rule is amended to be consistent with the statutory change.
