ANALYSIS

Statutes interpreted: § 453.03(2), Wis. Stats.

Statutory authority: §§ 15.08(5)(b) and 453.03(2), Wis. Stats.

Explanation of agency authority: An examining board shall promulgate rules for its own guidance and for the guidance of the profession to which it pertains. The Veterinary Examining Board may not require training or continuing education concerning the use, handling, distribution, and disposal of pesticides other than for disciplinary purposes.

Related statute or rule: § 453.03(2), Wis. Stats.

Plain language analysis:

The passage of 2009 Wisconsin Act 139 amended § 453.03(2), Wis. Stats., to create an exception to the promulgation of rules requiring training and continuing education sufficient to assure the competency of veterinarians and certified veterinary technicians in the practice of veterinarians and certified veterinary technicians in the practice of veterinary medicine. Per the statutory amendment, the Board may not require training or continuing education concerning the use, handling, distribution, and disposal of pesticides other than for disciplinary purposes.

Currently VE 10.04 requires a certification on the renewal application that veterinarians and certified veterinary technicians have taken one credit of continuing education in the use, handling, distribution and disposal of pesticides during the two years prior to the renewal. Section 6 repeals this requirement.

Sections 1-5 amends or repeals portions of the Administrative Code to remove all references to VE 10.04.

Summary of, and comparison with, existing or proposed federal regulation:

None

Comparison with rules in adjacent states:

Illinois: Illinois does not require continuing education in the use, handling, distribution and disposal of pesticides.

Iowa: Iowa does not require continuing education in the use, handling, distribution and disposal of pesticides.

Michigan: Michigan does not require any continuing education for veterinarians or veterinary technicians.

Minnesota: Minnesota does not require continuing education in the use, handling, distribution and disposal of pesticides.

Summary of factual data and analytical methodologies:

The Veterinary Examining Board ensured the accuracy, integrity, objectivity and consistency of data were used in preparing the proposed rule and related analysis.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact analysis:
