: (CLEARINGHOUSE RULE 14-011)

PROPOSED ORDER

An order of the Dentistry Examining Board to create chapter DE 8, relating to patient dental records

Analysis prepared by the Department of Safety and Professional Services.

ANALYSIS

Statutes interpreted: ss. 146.81 (1) and (4), and 447.02, Stats

Statutory authority: ss. 15.08 (5) (b) and 227.11 (2) (a), Stats.

Explanation of agency authority:

Section 15.08 (5) (b), Stats., requires all examining boards to "...promulgate rules for its own guidance and for the guidance of the trade or profession to which it pertains, and define and enforce professional conduct and unethical practices not inconsistent with the law relating to the particular trade or profession."

Section 227.11 (2) (a), Stats., authorizes all agencies to promulgate rules interpreting the statutes it enforces or administers, when deemed necessary to effectuate the purpose of such statutes.

Related statute or rule: s. 146.81 (1) and (4), Stats.

Plain language analysis:

The proposed rule is to outline the minimum requirements for patient dental records. The rule considers ss. 146.81 (1) and (4), Stats., whereby dentist is defined as a healthcare provider and consequently required to maintain patient health records as specified in s. 146.81 (4). No additional requirements are proposed in this newly created chapter.

SECTION 1. This section creates a new chapter, DE 8 patient dental records and substantially mirrors the patient health records as specified in ch. Med 21, Wisc. Admin. Code. Specific areas of compliance include: retention, confidentiality, destruction and falsification of records.

SECTION 2. This section identifies when in the rule-making process the rule shall become effective.

Summary of, and comparison with, existing or proposed federal regulation:

An Internet-based search of the U.S. Code and Federal Register did not reveal any laws or proposals related to patient dental records, with the exception of the move to electronic records for Medicaid patients in 2016.

Comparison with rules in adjacent states:

An Internet-based search of the four adjacent states revealed the following:

Illinois: In Illinois, the Department of Financial and Professional Regulation oversees dentists; no rules requiring patient dental records were found.

Iowa: In Iowa, chapter 27 of the Iowa code, 650—27.11 (153,272C), relates to record keeping. Patient dental records must be maintained for a minimum of six years after the date of last examination, prescription, or treatment and for a minor for 6 years after the age of majority. Similar to other states, when electronic records are kept, a duplicate hard copy record or use of an unalterable electronic record must be maintained.

Michigan: In Michigan, the Board of Dentistry rule, 1120 (R 338.11101 - 338.11821), requires records to be maintained for 10 years after the last treatment. In addition charting of dental procedures and a listing of medications administered are two additional requirements unlike proposed in this rule.

Minnesota: In Minnesota, the related rule is 3100.9600, record keeping. This rule requires records to be maintained for 7 years after the last treatment. In the case of a minor patient, the records must be maintained for 7 years beyond the age of majority. In addition an emergency contact, information related to any insurance coverage, and providing an electronic backup are three additional requirements unlike proposed in this rule.

Summary of factual data and analytical methodologies:

Other than reviewing rule text contained in ch. Med 21, no factual data and analytical methodologies were used to draft these rules.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact analysis:

The issue of patient dental records was raised in the context of not having a record retention policy and the impact on associated costs related to the amount of storage dentists and firms are currently are maintaining. Section 146.81 (4), Stats., provides a period for destruction of records 5 years after the date of the last entry, or for such longer period as may be otherwise required by law.

Pursuant to s. IV, 3. a., Executive Order # 50, the rules herein were posted on both the state's and the department's administrative rules websites for 14 days in order to solicit comments regarding the rule's potential economic impact on businesses, business sectors, professional associations, local government units, or potentially interested parties.

It is expected that this proposed rule will result in a decrease expense at least in the cost of hard-copy record storage. No specific data was collected or analyzed to come to this conclusion or to determine an estimated cost savings.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact report:

The agency posted these proposed rule for 14 days to solicit impact on small business; no comments were received.

Fiscal Estimate and Economic Impact Analysis:

The Fiscal Estimate and Economic Impact Analysis is attached.

Effect on small business:

These proposed rules do not have an economic impact on small businesses, as defined in s. 227.114 (1), Stats. The Department's Regulatory Review Coordinator may be contacted by email at Tom.Engels@wisconsin.gov, or by calling (608) 266-8608.
