

ORDER OF THE DEPARTMENT OF REVENUE REPEALING, AMENDING, AND CREATING RULES

The Wisconsin Department of Revenue proposes an order to: **repeal** Tax 2.82 (4) (a) 4. and 6.; **amend** Tax 2.82 (3) (b) 3. a., (4) (a) 3., 5., 7., 8., 9., and 11., and (d); and **create** Tax 2.82 (2) (d) and (4) (a) 5m., 7. (Example), 9m., and 11. (Example); **relating to** income and franchise tax provisions.

The scope statement for this rule, SS 014-17, was approved by the Governor on January 23, 2017, published in Register No. 733B on January 30, 2017, and approved by the Secretary of Revenue on February 10, 2017.

Analysis by the Department of Revenue

Statutes interpreted: ss. 71.22 (1r), 71.23 (1) and (2), 71.255 (5), and 77.93, Stats.

Statutory authority: ss. 71.80 (1) (c) and 227.11 (2) (a), Stats.

Explanation of agency authority: Under s. 71.80 (1) (c), Stats., the department may make such regulations as it shall deem necessary in order to carry out chapter 71 of the Wisconsin Statutes, relating to income and franchise taxes. This provision applies to the revision of s. Tax 2.82.

Section 227.11 (2) (a), Stats., provides "[e]ach agency may promulgate rules interpreting the provisions of any statute enforced or administered by the agency, if the agency considers it necessary to effectuate the purpose of the statute..." This provision applies to the revision of s. Tax 2.82.

Related statute or rule: Section Tax 2.39(6)(b) provides that sales of tangible personal property are included in the numerator of the sales factor of the apportionment percentage if the taxpayer ships the property from a location in Wisconsin to a destination state in which the taxpayer does not have nexus. Section Tax 2.39(6)(b)5. provides that the standards set forth in s. Tax 2.82 are used to determine whether a taxpayer has nexus in another state. Therefore, any changes to the standards in s. Tax 2.82 will affect the apportionment percentage and amount of income taxable to Wisconsin by certain taxpayers.

Section 71.22 (1r), Stats., lists activities that are considered to be "doing business in this state."

Section 71.23 (3), Stats., lists activities that do not create nexus.

Plain language analysis: The rule clarifies the level of activity and/or types of activities that, when performed by an out-of-state business, establishes nexus in Wisconsin and requires the filing of a Wisconsin income/franchise tax return.

Currently s. Tax 2.82 provides a listing of activities that constitute nexus for an unlicensed foreign corporation, and requires the filing of Wisconsin corporate income or franchise tax returns. The current list of activities uses the terms "usual or frequent" or "regularly" to describe certain activities that create nexus. The department wishes to

establish a standard of "usual or frequent" or "regularly" that can be administered clearly and consistently.

In addition, the department wishes to clarify that ownership of a tangible personal property in Wisconsin (e.g., inventory or equipment) establishes nexus in Wisconsin.

Summary of, and comparison with, existing or proposed federal regulation:

Federal constitutional provisions: Article I, Section 8 of the U.S. Constitution grants congress the power to regulate commerce with foreign nations and among the several states. States are prohibited from levying a tax which imposes a burden on interstate or foreign commerce.

Federal Public Law 86-272: Under Public Law 86-272, a state may not impose its franchise or income tax on a business selling tangible personal property, if the only activity of that business is the solicitation of orders by its salesperson or representative which orders are sent outside the state for approval or rejection, and are filled by delivery from a point outside the state. The activity must be limited to solicitation. If there is any activity which exceeds solicitation, the immunity from taxation under Public Law 86-272 is lost. This law does not prohibit states from imposing franchise/income tax on out-of-state businesses that sell services, real estate, or intangibles into a state.

Comparison with rules in adjacent states: Most states do not have laws or regulations that establish a clear threshold or standard of activities that create nexus. Nexus is often determined on a case-by-case basis.

Michigan – A corporation has nexus with Michigan for corporate income tax purposes if that corporation has a physical presence in the state for a period of more than one day during the tax year, if the corporation actively solicits sales in the state and has gross receipts of \$350,000 or more sourced to the state, or if the corporation has an ownership interest or beneficial interest in a flow-through entity, directly, or indirectly through one or more flow-through entities, that has substantial nexus in the state.

Illinois: – The question of nexus in Illinois is highly fact-dependent. Tax is imposed on every corporation for the privilege of earning or receiving income in the state. The only threshold imposed relates to sample or display rooms. Maintaining a sample or display room in excess of 14 days will create income tax nexus for an out-of-state business.

Minnesota – There is no standard or threshold that would create nexus in Minnesota. Tax is imposed on every entity that obtains or regularly solicits trade or business from within the state.

Summary of factual data and analytical methodologies: Based on research of other states' laws and regulations, case law, and suggestions from Wisconsin Institute of Certified Public Accountants-Tax Committee.

Analysis and supporting documents used to determine effect on small business: Current Wisconsin law and regulations determine whether small businesses must file Wisconsin tax returns, and, in the case of multi-state businesses, determine the amount of income taxable to Wisconsin.

Anticipated costs incurred by private sector: Out-of-state businesses may incur costs to file a Wisconsin income/franchise tax return if they are considered to have nexus because of the rule changes.

Effect on small business: Out-of-state businesses may have nexus in Wisconsin and be required to file a Wisconsin income/franchise tax return. Small businesses already doing business in Wisconsin may have nexus in other states which could reduce the amount of income apportioned and taxable to Wisconsin.
