Med 6.01 Authority and Purpose. The rules in this chapter are adopted by the Medical Examining Board pursuant to the authority delegated by s.15.08(5), 227.08, and 448.40, Wis. Stats., and govern the issuance of license to practice podiatric medicine and surgery under s.448.04 (1) (d), Wis. Stats.

Med. 6.02 Applications and credentials. Every person applying for regular license to practice podiatric medicine and surgery shall make application therefor on forms provided for this purpose by the board and shall submit to the board the following:

- (1) A completed and verified application form.
- (2) Verified documentary evidence of graduation from a school of podiatric medicine and surgery approved by the board and a verified photographic copy of the diploma conferring the degree of doctor of podiatric medicine or its equivalent as determined by the board granted to the applicant by such school. (3) An unmounted photograph of approximately 8 by 12 cm. of the applicant taken not more than 60 days prior to the date of application and bearing on the reverse side the statement of a notary public that such photograph is a true likeness of the applicant.

Med 6.04 Application Deadline and Fees. The fully completed application and all required documents must be received by the board at its office not less than three weeks prior to the date of examination. The required fees must accompany the application, and all remittances must be made payable to the Wisconsin Medical Examining Board.

Med 6.05 Examinations.

(1) Examinations are both written and oral-practical and conducted only in the English language. The written and oral-practical examinations are scored separately, and each applicant must achieve passing grades on both the written and oral-practical examination to become qualified for grant of license. The board designates the podiatry examining council as its agent for conducting examinations.

(2) The board utilizes the national board examination of the national board of podiatry examiners as its written examination, and requires a score of 75% or better as recorded by the national board of podiatry examiners as passing score. Each applicant is responsible for arranging his own examination by the national board of podiatry examiners.

(3) An applicant who has received passing grades in written examinations for a license to practice podiatry conducted by another licensing jurisdiction of the United States, may submit to the board documentary evidence thereof. The board will review such documentary evidence to determine whether the scope and passing grades of such examinations are substantially equivalent to those of this state at the time of the applicant's examination, and if the board finds such equivalency, the board will accept this in lieu of requiring the applicant to achieve a passing grade in the national board examination of the national board of podiatry examiners. The burden of proof of such equivalency shall lie upon the applicant.

(4) Oral-practical examination of each applicant are conducted by members of the podiatry examining council and are scored as pass or fail.

(5) The board will notify each applicant found eligible for examination of the time and place scheduled for that applicant's oral-practical examination. Failure of an applicant to appear for examination as scheduled will void that applicant's application and require the applicant to reapply for licensure, unless prior scheduling arrangements have been made with the board by the applicant.

Med 6.06 Failure and Re-examination. An applicant who fails to achieve a passing grade in the examinations required under this chapter may apply for re-examination on forms provided for that purpose by the board. For each such re-examination the application therefor shall be accompanied by the re-examination fee. An applicant who fails to achieve a passing grade in the examinations required under this chapter may be re-examined twice at not less than four month intervals and if such applicant fails to achieve a passing grade on the second such re-examination that applicant shall not be admitted to further examination until such applicant reapplies for licensure and also presents to the board evidence of further professional training or education as the board may deem appropriate in such applicant's specific case.

Med 6.07 Temporary Educational License. An applicant who has been appointed to a postgraduate training program in a facility in this state recommended by the podiatry examining council and approved by the board may apply to the board for a temporary educational license to practice podiatric medicine and surgery and shall submit to the board the following:

(1) A completed and verified application form supplied by the board for this purpose.

(4) The holder of a temporary educational license to practice podiatric medicine and surgery may, under the direction of a person licensed to practice podiatric medicine and surgery in this state, perform services requisite to the training program in which that holder is serving. Acting under such direction, the holder of such temporary educational license shall also have the right to prescribe drugs other than controlled substances and to sign any certificates, reports or

other papers for the use of public authorities which are required of or permitted to persons licensed to practice podiatric medicine and surgery. The holder of such temporary educational license shall confine his training and entire practice to the facility in which he is taking the training and to the duties of such training.

(5) Violation by the holder of a temporary educational license to practice podiatric medicine and surgery of any of the provisions of this chapter or of any of the provisions of the Wisconsin Administrative Code or of Chapter 448 of the statutes which apply to persons licensed to practice podiatric medicine and surgery shall be cause for the revocation of such temporary educational license.

(6) Temporary educational licenses granted under this chapter shall expire one year from date of issuance.

Med 6.08 Locum Tenens License. (1) A person who holds a valid license to practice podiatric medicine and surgery issued by another licensing jurisdiction of the United States may apply to the board for a locum tenens license to practice podiatric medicine and surgery and shall submit to the board the following:

(a) A completed and verified application form supplied by the board for this purpose.

(b) A letter from a podiatrist licensed to practice podiatric medicine and surgery in this state requesting the applicant's services.

(c) A verified photostatic copy of a license to practice podiatric medicine and surgery issued by another licensing jurisdiction of the United States to the applicant.

(d) A recent photograph of the applicant as required under section Med 6.02(3).

(e) The required fees must accompany the application, and all remittances must be made payable to the Wisconsin medical examining board.

(3) The holder of a locum tenens license to practice podiatric medicine and surgery may practice podiatric medicine and surgery as defined in section 448.01 (8) Wis. Stats., providing such practice is confined to the geographical area for which the license is issued.

(4) A locum tenens license to practice podiatric medicine and surgery shall expire 90 days from the date of its issuance. For cause shown to its satisfaction, the board, acting through an officer of the podiatry examining council, may renew such locum tenens license for additional periods of 90 days each, but no such license may be renewed no more than three consecutive times.
