(4) PURCHASES. Section 77.54(9a), Wis. Stats., or any other unit of government, or any agency or instrumentality of 2 or more units of government within this state. However, the exemption does not apply to governmental units of other states. (a) A Wisconsin governmental unit need not give a retailer an exemption certificate to purchase taxable property or services without tax. A purchase order identifying the Wisconsin governmental unit shall be acceptable evidence of the exempt nature of the purchase.

(b) A Wisconsin governmental unit's payments to sellers for welfare recipients' purchases are generally subject to the tax, except when the purchase is made directly by the governmental unit and:

1. The governmental unit gives its purchase order to the seller before the sale is completed or the taxable service is performed;

2. The seller bills the governmental unit directly; and

3. The seller retains a copy of each purchase order received from the governmental unit to substantiate the exempt sale.

(c) Purchases by federal and state chartered credit unions are subject to the sales tax. The use tax shall apply to state chartered credit unions, but not to federally chartered credit unions due to constitutional restrictions.

(d) Purchases (such as for lodging, meals or uniforms) by employees of a governmental unit are not exempt, whether or not the employee is subsequently reimbursed for such purchases by the governmental unit.

NOTE: The interpretations in this rule are effective under the general sales and use tax law on and after September 1, 1969 unless otherwise noted in the rule.

GROSS RECEIPTS, SALES PRICE AND THE BRACKET SYSTEM

Section Tax 11.32 of the Wis. Adm. Code is adopted to read:

Tax 11.32 "Gross receipts" and "sales price". (Sections 77.51(11)(a) (intro.) and 4, (b)1 and (c)2, and (12)(a) (intro.) and 4, (b)1 and (c)1, and 77.61(3), Wis. Stats.) (1) GENERAL. The amount to which the sales and use tax rate is applied is "gross receipts" for sales tax and "sales price" for use tax. Both "gross receipts" and "sales price" mean the total amount of the sale, lease or rental from retail sales of tangible personal property or taxable services, valued in money, whether received in money or otherwise.

(2) HANDLING AND SERVICE CHARGES. A retailer's gross receipts from charges for customer alterations, handling services, small orders, returned merchandise, restocking, split shipments and similar charges for services related to retail sales shall be included in gross receipts derived from the sale of taxable personal property or taxable services. However, cancelled order charges are not taxable if there is no transfer of merchandise to a customer.

(3) CASH DISCOUNTS OR PRICE REBATES. (a) Cash discounts allowed by a retailer directly to customers reduce the gross receipts subject to the tax. The customer must receive the discount for the retailer to exclude it from gross receipts. For example, a payment made to a nonprofit organization based on a percentage of the purchases made by the group's members is not a cash discount for sales and use tax purposes.

(b) A retail cooperative's rebates to members, which are made after the net profit is determined at the end of a year, are patronage dividends rather than cash discounts, and are not deductible from the cooperative's gross receipts.

(c) Effective June 1, 1975, a manufacturer's cash rebate to a person who purchases tangible personal property from a retailer is not a reduction in the retailer's gross receipts or sales price for the item.

(4) SALES TAX COLLECTED FROM CUSTOMERS. (a) Section 77.51(11)(a)4 provides in part that "if a retailer establishes to the satisfaction of the department that the sales tax . . . has been added to the total amount of the sales price and has not been absorbed by him, the total amount of the sales price shall be deemed to be the amount received exclusive of the sales tax imposed." Therefore, when the tax is collected from customers who are notified of that fact, the amount of the tax collected is not included in the base to which the tax applies. For example, if taxable property is sold for \$100 and \$4 of tax is collected for a total of \$104, the tax payable by the retailer is determined by multiplying the tax rate times \$100.

(b) If a retailer cannot collect any tax because all sales are below the minimum price on which tax is collectible under the bracket system, no part of the retailer's gross receipts shall be treated as tax collected from customers. For example, a vending machine operator whose only receipts are from sales of 10¢ items cannot collect any sales tax from customers, and the tax applies to the total gross receipts.

(c) If a vending machine operator sells taxable property at a price such that a sales tax is collectible under the bracket system, part of the gross receipts from such sales shall be deemed to include sales tax if customers are advised that vending machine prices include sales tax.

(5) BRACKET SYSTEM. (a) The following bracket system shall be used by retailers in computing the amount of tax which may be collected from the retailer's customers:

<u>Amount of Taxable Sale</u>	<u>Tax Collectible</u>
\$.01 to \$.12	\$.00
.13 to .37	.01
.38 to .62	.02
.63 to .87	.03
.88 to 1.12*	.04

*On sales exceeding \$1.00, the tax equals 4% of each full dollar plus the tax shown above for the applicable fractional part of a dollar. When more than one item is sold in a single transaction, the tax shall be computed on the aggregate sales price of the items sold.

(b) The bracket system method is designed so that the total amount of tax paid by customers shall approximate 4% of a retailer's gross receipts, if the retailer's sales fall equally throughout all the brackets.

(c) The gross sales tax payable by a retailer is 4% of the retailer's taxable gross receipts, regardless of the amount of tax collected from customers.

(d) A retailer shall conspicuously post bracket system cards (showing the tax collectible on the dollar amount of a sales transaction, as set forth in par. (a)) to establish to the satisfaction of the department of revenue that the sales tax has been added to the sales price, unless a receipt is issued separately itemizing the tax.

NOTE: The interpretations in this rule are effective under the general sales and use tax law on and after September 1, 1969 unless otherwise noted in the rule.

Section Tax 11.51 of the Wis. Adm. Code is adopted to read:

(c) Explanations of some items noted above. As indicated in (a) and (b) above:

1. "Heated Food" means those products, items or components which have been prepared for sale in a heated condition and which are sold at any temperature higher than the air temperature of the room or place where they are sold.
2. Sales of soda water beverages, bases, concentrates and powders which may be reconstituted into soft drinks, and fruit juice drinks, punches and nectars which have additives known as extenders are taxable. Extenders commonly used are citric acid, peel oil and artificial color.
3. Sales of pure fruit juices as defined in Chapter 97 (Statutes of 1967) are not taxable. Fruit juices are the clean, unfermented liquid product obtained by the first pressing of fresh ripe fruits. The only permissible additives are sugar and one of the preservatives such as sodium benzoate, sorbic acid or sodium sorbate. Frozen concentrates conforming to the above description are also tax exempt.
4. "Dietary foods" include products intended to substitute in whole or in part for the ordinary diet such as Metrecal and meat base formula. It also includes those products which supplement the ordinary diet, such as Ovaltine, and compressed or concentrated foods taken in wafer form which can be identified as food because of higher concentrated food values of carbohydrates and proteins. For example, a protein concentrate used by persons engaged in athletic activities is an exempt food. Dietary foods do not include patent medicines, tonics, vitamins and medical-type preparations in liquid, powdered, granular, tablet, capsule, lozenge and pill form used for medicinal or remedial purposes. The sales of such items are taxable.

NOTE: The interpretations in this rule are effective under the general sales and use tax law on and after September 1, 1969 unless otherwise noted in the rule.

COMMUNICATION AND CATV SERVICES

Section Tax 11.66 of the Wis. Adm. Code is adopted to read:

Tax 11.66 Communication and CATV services. (Sections 77.51(28), 77.52(2)(a)4 and 12 and 77.54(24), Wis. Stats.) (1) TAXABLE SERVICES. Gross receipts from the sale or charge for the following services are taxable: (a) Intrastate telegraph service.

(b) Telephone services, except interstate service, directory advertising and coin-operated telephone service. All intrastate toll services provided on or after July 31, 1975 and billings for exchange service made on or after that date are taxable.

(c) Two-way voice communication services over telephone or radio (commonly referred to as mobile telephone service). Nonmechanical telephone answering services are not taxable.

(d) One-way paging service effective July 31, 1975.

(e) Cable television system service, including installation charges, effective October 1, 1975.

(2) PURCHASES BY PERSONS PROVIDING SERVICE. Persons engaged in the business of providing communications services are consumers, not retailers, of the tangible personal property used in providing such services. The tax applies to the sale of such property to them. However, section 77.54(24), Wis. Stats., exempts "apparatus, equipment and electrical instruments, other than station equipment, in central offices or telephone companies, used in transmitting traffic and operating signals".

NOTE: The interpretations in this rule are effective under the general sales and use tax law on and after September 1, 1969 unless otherwise noted in the rule.

MOTOR VEHICLES

Section Tax 11.83 of the Wis. Adm. Code is adopted to read:

Tax 11.83 Motor vehicles. (Sections 77.51(7)(am), 77.53(16) and (18), 77.54(5)(a) and (7) and 77.61(1), Wis. Stats.) (1) DEFINITION. In this rule, "motor vehicle" means a self-propelled vehicle (e.g., automobile, truck, truck-tractor and motorcycle) designed for and capable of transporting persons or property on a highway. In this rule, "motor vehicle" does not include a self-propelled vehicle which is not designed or used primarily for transportation of persons or property, and is only incidentally operated on a public highway, such as a farm tractor, snowmobile, fork lift truck, and road machinery as defined in section 340.01(52), Wis. Stats.. "Motor vehicle" does not include a vehicle which is not self-propelled such as a trailer or semitrailer.

(2) RETAILERS' TAXABLE GROSS RECEIPTS. A retailer's taxable gross receipts include: (a) Gross receipts from the sale of a motor vehicle minus any trade-in allowance, if the sale and trade-in are one transaction. A separate or independent sale of a motor vehicle by either the buyer or seller of another motor vehicle is not a trade-in, even if the proceeds from the sale are immediately applied by the seller to a purchase of another motor vehicle. A dealer does not realize taxable receipts from a transaction in which one motor vehicle is traded for another of lesser value (a "trade-down").

(b) Gross receipts from charges for delivery, handling, preparation and any warranty.

(c) Gross receipts from equipment and accessories sold with a motor vehicle.

(d) Gross receipts from charges for all parts and labor for repair, service and maintenance performed on a motor vehicle, including charges for installation of accessories or attachments (e.g., a radio or air conditioner).

(3) OCCASIONAL SALE OR PURCHASE OF MOTOR VEHICLES FROM NON-DEALERS. (a) The occasional sale of a motor vehicle is taxable, unless the transfer is to the spouse, parent or child of the transferor; and the motor vehicle has been previously registered in this state in the name of the transferor; and the transferor is not a motor vehicle dealer. A son-in-law or daughter-in-law is not allowed this exemption.

(b) The purchaser of a motor vehicle from a non-dealer shall pay the tax due to the department of transportation before the vehicle is registered for use in this state.

(c) A Wisconsin resident purchasing a motor vehicle in a foreign country, or for delivery in a foreign country, shall pay the Wisconsin use tax when the resident registers the vehicle in Wisconsin for use in Wisconsin, subsequent to use in the foreign country. The tax is measured by the full "sales price" of the vehicle.

(d) When one co-owner transfers an interest in a motor vehicle to the other co-owner, tax shall apply on the transfer of such interest. The measure of the tax shall be the cash or its equivalent paid for the equity transferred plus the selling co-owner's share of the liabilities assumed by the buying co-owner.

(4) PURCHASES BY NONRESIDENTS. (a) The gross receipts from the sales of motor vehicles or truck bodies to nonresidents of this state (including members of the armed forces) who will not use such vehicles or trucks (for which the truck bodies were made) in this state other than in their removal from this state are exempt. However, the separate sale of a "slide-in" camper to a nonresident is taxable if delivery is in Wisconsin.

(b) Gross receipts from the repair by a Wisconsin retailer of a nonresident's motor vehicle is subject to the tax.

(c) A motor vehicle purchased by a nonresident of Wisconsin 90 days or more before bringing such vehicle into this state, in connection with a change of residence to this state, is not subject to the Wisconsin use tax.

(d) Except as provided in par.
