ORDER OF THE
STATE SUPERINTENDENT OF PUBLIC INSTRUCTION
CREATING RULES

The state superintendent of public instruction hereby creates ch. PI 38, relating to grants for staff development.

ANALYSIS BY THE DEPARTMENT OF PUBLIC INSTRUCTION

Statutory authority: s. 227.11(2)(a), Stats.

Statute interpreted: s. 115.366, Stats.

1991 Wisconsin Act 269 created s. 115.366, Stats., which establishes two grant categories for staff development. Under s. 115.366(1), Stats., the state superintendent shall allocate \$400,000 annually for one-year grants to eligible school districts for staff development programs. A school district is eligible if, in the previous school year, the quotient of the school district's equalized valuation divided by its membership was less than 75% of the statewide average.

Under s. 115.366(2), Stats., the state superintendent shall allocate \$400,000 annually for grants to school districts, cooperative educational service agencies and professional educational development consortia for staff development.

A grant program applied for under either category must be developed with significant input from teachers, may not use grants awarded to supplant or replace funds otherwise available for the program and may not use the grant to fund more than 75% of the cost of the program.

The grant program begins the 1992-93 school year. Since the timelines would be too stringent to implement this grant program by September of the 1992-93 school year, the department is requiring applications to be submitted by October 1, 1992. The grant award period will be from November 1, 1992 to June 30, 1993. Applications submitted in subsequent years will be due May 1 with grant periods of July 1 to June 30.

The proposed rules establish application requirements and primary and secondary criteria for awarding grants under the staff development program under both categories.

The department promulgated these rules as emergency rules effective July 7, 1992.

SECTION 1. Chapter PI 38 is created to read:
