PLAIN LANGUAGE ANALYSIS

Statutory Authority: Sections 48.22(2), 227.11(2)(a) and 301.37, Stats.

Statutes Interpreted: Section 48.22(2) and 301.37, Stats.

The department has the responsibility for establishing standards for the operation of juvenile detention facilities and the juvenile portion of county jails. These standards must be designed to protect the health, safety and welfare of confined juveniles. They are also designed to maintain the safety and security of staff in these facilities.

In this rule, the department establishes minimum standards concerning programming within detention facilities. The rule requires facilities to develop written policies and procedures related to listed program areas. In some areas the department has established specific standards. The program areas include admission, health screening and care, medications, communicable disease control, suicide prevention, medical records, nutrition, personal hygiene, personal property, clothing, mail, telephone, visitation, programming, educational programming, reading material, recreation and exercise, uncompensated work assignments, religious programming, volunteers, observation of juveniles, and canteen. Some of these program areas are currently addressed in the rule, others are new.

The rule reestablishes an annual training component of 16 hours for staff in the juvenile facilities. This is consistent

with the requirements of the Wisconsin Jail Removal Plan.

The rule provides for the creation of dormitories and permits limited use of double-celling. It establishes minimum physical plant standards for existing and new facilities.

The department revised the sanitation requirements to meet current sanitary standards of the Department of Health and Social Services.

The rule also establishes a procedure for facilities to request an exception to the standards and requirements contained in the rule. The variance language is consistent with the language found in chapters DOC 349 and 350 which relate to municipal lock-ups, county jails and houses of correction.

Finally, the department reorganized and renumbered existing sections within the chapter.
