PR-03-20

Analysis Prepared by the Department of Natural Resources

1. Statutes interpreted and explanation of agency authority: The department has the authority under s. 23.09 (2), Stats., to promulgate rules and establish plans and projects for conservation, including establishing game and fish refuges, acquiring lands, and maintaining lands for conservation, habitat, research, scenic, historical and recreational purposes.

Section 23.091, Stats., authorizes the department to acquire, develop, operate and maintain state recreation areas and establish use zones and associated rules within state recreation areas.

Section 23.11, Stats., grants the department jurisdiction over department lands.

In s. 23.115, Stats., the department is directed to designate trails, campgrounds, picnic areas and other special use areas, and roads on department properties.

Section 23.117, Stats., allows the department to post trails as open to use by bicycles, electric scooters or electric personal assistive mobility devices, and requires the department to regularly patrol trails in state parks and the Kettle Moraine state forest.

Section 23.28, Stats., authorizes the department to designate and regulate state natural areas, and restricts the department from allowing uses of state natural areas that are incompatible with the natural value of those areas.

The department is authorized under s. 23.305, Stats., to lease state park or state forest land to towns, villages or counties for outdoor spectator sports purposes.

Section 23.33, Stats., authorizes the department to regulate all-terrain vehicles and utility terrain vehicles in a manner consistent with the rules established in this section of statutes.

The state park system is established in s. 27.01, Stats., and this section grants the department acquisition, development and administration authority for the state park system. This includes authority in s. 27.01 (2) (j) and (k), Stats., to promulgate rules regulating the use of state parks. Furthermore, s. 27.01 (10) (b), Stats., allows the department to establish and operate campgrounds on department lands, and s. 27.01 (11), Stats., authorizes the department to establish a campground reservation system and promulgate rules associated with it.

Section 29.014, Stats., grants the authority for the department to establish open and closed seasons, bag limits, size limits, rest days and other conditions for taking fish and game to conserve fish and game and ensure continued opportunities for good fishing, hunting and trapping.

According to s. 29.335, Stats., the department shall promulgate rules regulating feeding of wildlife.

In s. 29.617, Stats., authority is granted to the department to acquire, lease, develop and maintain public hunting and fishing grounds.

In addition, general authority is granted by s. 227.11 (2) (a), Stats., to implement and interpret its statutory authority.

2. Statutory Authority: Sections 23.09 (2), 23.091, 23.11, 23.115, 23.117, 23.28, 23.305, 23.33, 27.01, and 29.014, Stats., authorize these rules.

4. Related Statutes or Rules: No related statutes or rules are currently being developed.

5. Plain Language Analysis: Chapter NR 45, Wis. Adm. Code, governs the conduct of visitors to the lands and facilities owned, eased, or leased by the department. The department reviews this chapter periodically. These rules update fee structures, vehicle and boat use regulations, camping rules and hours of operation, technology regulations, rules relating to the possession of animals, general property use rules and property-specific rules. These rules also streamline language, minimize redundancy and clarify existing provisions of administrative code.

SECTION 1 of these rules expands the board's policy on the use of public lands by extending an invitation to all people to use department lands for outdoor recreational activities.

SECTION 2 clarifies that friends groups may organize and support the mission and activities of the department as well as its properties, facilities and programs.

SECTION 3 maps areas closed for human health and safety reasons. The first subsection are areas closed to all hunting and trapping, and the second subsection are areas closed to all public access. The third subsection is closed to hunting and trapping except for special seasons as indicated, the fourth subsection is closed to hunting and trapping except for bowhunting, and trapping by special permit and the fifth subsection contains areas closed to hunting and open to trapping by special permit. The sixth and final subsection are hunting and fishing closures of fish hatcheries.

SECTION 4 simplifies the definition of an "adult group" for purposes of camping reservations.

SECTION 5 creates a definition of "air boat" to clarify the types of boats considered to be air boats, which would also include fan boats. This will not result in a change of department policy. This section also creates a definition of "boat-in campsite" which will replace "watercraft campsites."

SECTION 6 amends the definition of backpack campsite to allow for the potential of site access by watercraft.

SECTION 7 creates a definition of "boat-in campsite" which will replace "watercraft campsites."

SECTION 8 expands the definition of "camping" to include hammock camping.

SECTION 9 repeals the definition of camper day because it is addressed elsewhere.

SECTION 10 amends the definition of camping permit to include camping types that do not require a fee.

SECTION 11 repeals the word hammock from the definition of "camping unit," because it is no longer needed.

SECTION 12 defines "commercial use" and "designated use area."

SECTION 13 expands the definition of “equine” to include other species and breeds of hoofstock that are considered to be equines and are used for the same purposes as the animals currently covered in the definition.

SECTION 14 expands the definition of a family to include legal guardians, and distinguishes standard campsites from backpack and boat-in campsites. This section also updates the name of a state forest so that it will be called the Governor Earl Peshtigo state forest as directed by the Natural Resources Board at its September 2019 meeting. Finally, this section simplifies the definition of occupied so that it is consistent at sites statewide.

SECTION 15 creates a definition to clarify that Kohler-Andrae state park technically consists of two separate state parks (Terry Andrae and John Michael Kohler State Parks) and defines "property master plan" consistent with ch. NR 44.

SECTION 16 adds Governor Earl to the Peshtigo River property name in the list of northern forests, and elsewhere, consistent with the recent renaming of that property. This section also eliminates the list of specific properties from the definition of occupy.

SECTION 17 repeals the definition of “reservable remote camping” as it is no longer needed.

SECTION 18 establishes definitions for "reservation", "special property use", "standard boat-in campsite" and "state park system". This section also creates a definition for “stopover boat-in campsite” which is a site whose purpose is as a one-night stopover for paddlers on a water trail.

SECTION 19 repeals the definition of “teepee” because the department no longer has any of these.

SECTION 20 creates a definition of “ungulate,” which will be used to distinguish the activities allowed for equine animals from activities that would be prohibited for all hoofed mammals.

SECTION 21 repeals the definition of “watercraft campsite” because these sites have been given different names (SECTION 18).

SECTION 22 modifies the definition of a “water view campsite” so that special fees can be charged at northern as well as current southern forest campsites.

SECTION 23 renumbers and amends subsection NR 45.04 (1) to include prohibition of damage to natural growths and natural or archeological features, and references the exceptions, which will be reorganized into a separate collecting subsection in this rule (SECTION 32).

SECTION 24 reorganizes edible forage collection rules into a new collecting subsection and separates the stem collection provisions.

SECTION 25 repeals a note that is substantive and is being moved into a separate provision (SECTION 34).

SECTION 26 reorganizes and amends the provision relating to removal of invasive herbaceous plants to clarify that they may be removed without written permission.

SECTION 27 reorganizes the provisions relating to rocks, fossils and minerals into a new collecting subsection and clarifies that they may be collected with written permission of the property manager rather than a permit, which provides more flexibility to property managers and prospective collectors.

SECTION 28 allows the department to close gravel pits (as nonmetallic mines) on department managed lands to public access, until such time that they have completed the reclamation process.

SECTION 29 provides guidance on the closure of gravel pits on department lands.

SECTION 30 clarifies that the use of drones (unmanned aircraft systems) is regulated in the same way that other flying related activities are regulated.

SECTION 31 allows people engaged in dog training and trialing in accordance with chs. NR 16 and 17 to stock wild animals without written permission from the department. People engaged in dog training and trialing must already receive permission under chs. NR 16 and 17 to conduct those activities.

SECTION 32 creates the title and introduction for the new collecting subsection.

SECTION 33 creates a note specifying where to find the list of non-restricted invasive species, and points to ch. NR 40 invasive species permit requirements for disposing of invasive plants in a manner other than leaving them where they are pulled or disposing of them onsite. The ch. NR 40 requirements aim to prevent the spread of viable invasive species to new areas.

SECTION 34 reorganizes the provision on collection of stems for trapping purposes, establishes that both willow and aspen stems may be collected, and restricts the purpose of the collection to trap stakes and bait sticks, which are the two predominate uses. This section also allows collection of stems for these purposes without written permission from the property manager, as this type of collection is very limited in scope. This section also requires a person who wants to collect seeds from herbaceous or woody plants to obtain a seed collecting permit from the department, as restructured from the note which was repealed (SECTION 25). This section also allows a person to collect the clean skulls, antlers and bones of wild animals from department lands, as long as an open hunting season has been established for that species and the species is not otherwise covered by state and federal laws protecting them from collection and possession, such as endangered and threatened species and federally protected migratory birds.

SECTION 35 simplifies the list of locations with open hours.

SECTION 36 notes the hours of Kettle Moraine state forest - Lapham Peak, Whitefish Dunes state park and Havenwoods state forests.

SECTION 37 establishes a specific prohibition of going nude in public on department managed lands and defines nudity.

SECTION 38 establishes that, in addition to camping areas, a person who is expelled from a property is also prohibited from entering any other department managed lands, for 48 hours.

SECTION 39 prohibits anything other than human waste and toilet paper in toilets.

SECTION 40 provides additional criteria for unacceptable noise.

SECTION 41 establishes campground quiet hours from 11:00 p.m. to 6:00 a.m. and that, during those hours, a person may not make a noise at a level above that of a quiet conversation.

SECTION 42 clarifies that certain soliciting activities may be allowed by written agreement with the department and expands prohibition on destruction of property to include unauthorized

interference of state or personal property. This section also adds “damage” and “deface” to the provision prohibiting destruction of property of others.

SECTION 43 notes examples of the types of state property.

SECTION 44 reorganizes the personal property provision to allow for trail cameras to be left on department property.

SECTION 45 establishes that trail cameras are not considered personal property for purposes of the prohibition on storing personal property on department land.

SECTION 46 replaces "dead and down" with "wood that is both dead and down" which may be gathered for campfires.

SECTION 47 establishes the policy for overnight use of trail cameras on department lands, specifying that cameras must be properly marked with the operator’s contact information, that camera placement and use cannot damage vegetation or department property and that cameras cannot be placed in such a way to monitor other property users in certain areas designated for public use.

SECTION 48 utilizes the definitions created in SECTIONS 12 and 18 for special property use and commercial use to allow the department to better address the spectrum of use requests involving department lands.

SECTION 49 creates requirements for authorization of special property use.

SECTION 50 distinguishes terminology of "special event" and "special property use" consistent with other sections.

SECTION 51 specifies that proposals for special property use that are contrary to statute or administrative code require written authorization

SECTION 52 updates language to "special property use".

SECTION 53 clarifies that no person may operate any vehicle contrary to any posted traffic sign, other traffic control device, or traffic control officer.

SECTION 54 reorganizes and clarifies the default 25 mph speed limit and clarifies prohibition of unsafe operation and disorderly operation.

SECTION 55 repeals the speed limit provision (replaced by SECTION 54).

SECTIONS 56 to 60 update terminology consistent with statute and cross references related to electric bicycles, and reorganizes provisions to accommodate updates to terminology.

SECTION 61 repeals a note that is no longer relevant with the statutory creation of a definition of electric bicycle.

SECTION 62 requires operators of bicycles, electric bicycles, electric personal assistive mobility devices, and electric scooters to obey posted traffic sign, traffic control device and the direction of a traffic control officer.

SECTION 63 replaces "motor" with "electric" (consistent with statute updates that create a definition of electric bicycle) and prohibits unsafe operation of bicycles, electric bicycles, electric personal assistive mobility devices, and electric scooters.

SECTION 64 eliminates rule provisions associated with off-highway motorcycles that are no longer necessary due to the creation of separate off-highway motorcycle program.

SECTION 65 renames the Peshtigo River state forest as the Governor Earl Peshtigo River state forest as directed by the Natural Resources Board at its September 2019 meeting.

SECTION 66 breaks down cumbersome provisions into a more easily readable structure by stating all places that pets are not allowed and allowing additional no pet areas to be determined at the time of master planning. This section also allows the department to establish areas where pets may be allowed on-leash, off-leash, or both but under their owner's or handler's verbal control. This will allow the department to provide areas where people can bring pets to recreate and balance the needs of different user groups. This section also requires a leash be a physical leash that is attached to a pet, in areas where pets are allowed but leashes are required.

SECTION 67 specifies that no person may allow a pet on cross-country ski trails that are groomed or being prepared for grooming.

SECTION 68 eliminates the prohibition of pets in observation towers (moved to SECTION 66).

SECTION 69 replaces "family" with "standard" campsite consistent with updated definitions in SECTION 14.

SECTION 70 repeals several property-specific prohibitions that are no longer needed due to the overall revision of pet regulations.

SECTION 71 specifies that all ungulates rather than just equines are prohibited from being on beaches, posted or marked hiking trails, nature trails, picnic areas, non-equine campgrounds, or contrary to posted notice on the northern state forests or the Turtle-Flambeau scenic waters area. These are higher-use public areas on which user conflicts would likely arise with the presence of these animals. This section also expands the rules on riding animals on certain public lands to all equine animals, llamas and alpacas. While these animals are generally prohibited on department lands, they may be ridden or led on public highways, areas open to public vehicle use, areas and trails open to their use, and by permit on field trial areas.

SECTION 72 replaces "horse" with "equine animal" and adds llamas and alpacas to the provision prohibiting a person from recklessly riding or leading an animal on department lands in a way that would risk public health and safety.

SECTION 73 prohibits feeding wildlife in certain high-use areas on department lands. Feeding wildlife in these areas can lead to unsanitary conditions and potentially pose public safety issues relating to human-wildlife conflicts.

SECTION 74 prohibits the use of sky lanterns or airborne paper lanterns in order to reduce fire risks associated with those devices, and prohibits the release of balloons.

SECTION 75 removes "charcoal" from the word grill, adds on docks or piers in waters adjacent to any Great Lakes shoreline zone. This section also includes fire rings on the list of exceptions.

SECTION 76 prohibits shooting bows and crossbows across a campground.

SECTION 77 revises existing regulations at department-managed shooting ranges. Prohibits certain types of targets unless specifically permitted at a range and prohibits being impaired by an intoxicant or other controlled substance while shooting.

SECTION 78 prohibits the use of firearms other than handguns at handgun ranges, prohibits shooting from anywhere other than designated position or firing line, and prohibits armor piercing, tracer, incendiary, and .50 BMG ammunition in order to extend the service of range backstops and reduce closures for maintenance.

SECTION 79 expands an exception from shooting range regulations so that military training can be conducted but both military and law enforcement users will need to arrange with the department before using these ranges.

SECTION 80 clarifies that camping permits are to be obtained where permits are required. Also establishes that camping parties may not move without prior approval from the department and revises the start of camping permits from 3 p.m. to 1 p.m. (camping permits will continue to start at 3 p.m.).

SECTIONS 81 to 88 revise camping regulations. An adult must obtain camping permits on behalf of juveniles and is responsible for the juveniles. These sections update terminology consistent with other sections of this rule and clarify that evicted parties are not eligible for refunds. These sections also repeal regulations that are no longer needed and revise cross references. Finally, these sections codify the department's current policy for campers who do not arrive to occupy a campsite.

SECTIONS 89 to 92 update camping maximum stays for different types of campsites.

SECTION 93 clarifies camping regulations and utilizes new definition for boat-in camping.

SECTION 94 update reservation and other rules for indoor group camps to make them more consistent with other types of camping in the online reservation system. For example, this rule removes the requirement that reservation fees are due in the form of a check or money order. This rule also eliminates the indoor group camp at Big Bay as it no longer exists.

SECTION 95 update reservation and other rules for indoor group camps to make them more consistent with other types of camping in the online reservation system. For example, this rule removes the requirement that reservation fees are due in the form of a check or money order. This rule also eliminates the indoor group camp at Big Bay as it no longer exists.

SECTION 96 update reservation and other rules for indoor group camps to make them more consistent with other types of camping in the online reservation system. For example, this rule removes the requirement that reservation fees are due in the form of a check or money order. This rule also eliminates the indoor group camp at Big Bay as it no longer exists.

SECTION 97 update reservation and other rules for indoor group camps to make them more consistent with other types of camping in the online reservation system. For example, this rule removes the requirement that reservation fees are due in the form of a check or money order. This rule also eliminates the indoor group camp at Big Bay as it no longer exists.

SECTION 98 establishes terms for cancellations and modifications of camping reservations.

SECTION 99 removes Woodman Lake from the electric-only motor restriction for boating, and removes Birch Lake which is no longer a department property and Cruson and Smith lakes from the no motorboat restriction in ch. NR 45. In the absence of these specific restrictions, the standard slow-no-wake restrictions in ch. 30, Stats., would apply to Birch Lake, while Cruson and Smith lakes are moving to the electric-only motor restriction in a subsequent section of this rule. This section also removes Lake Seven from motorboat restrictions under ch. NR 45, as

Lake Seven has private shoreline and is therefore not under the exclusive riparian control of the department.

SECTION 100 adds the waters of Paradise Valley Wildlife Area except for those waters not under the exclusive riparian control of the department, including the Bark River channel and Beaver Dam Lake, to the electric-only motor restriction for boating. Paradise Wildlife Area contains sensitive habitat for wildlife and the property master plan emphasizes non-motorized recreation. This section also adds Cruson and Smith lakes in Richland County to the electric-only motor restriction for boating, as this designation is more consistent with public recreational uses without the concerns associated with the impacts of gas motors on aquatic habitat. It also corrects the spelling of Cruson.

SECTION 101 removes Mt. Hope Pond from NR 45 boating restrictions, as the pond no longer exists.

SECTIONS 102 and 103 state that air boat use is prohibited on state park lands and waters under the supervision, management, or control of the department within the boundary of state parks, except if posted, and on other properties, air boat use is prohibited on lands and wetlands under the supervision, management or control of the department and is only prohibited on waters under the exclusive riparian control of the department, except if posted authorizing air boats.

SECTION 103 also allows air boats to be launched from department-owned launches in waterbodies not restricted elsewhere in ch. NR 45 that have navigable public access, such as through another waterbody or a public right-of-way. All waters within Wisconsin are considered to be under the jurisdiction of the state, so the current language is confusing and does not accurately reflect the intended goal of limiting air boat use on department lands and waterbodies, while aligning with the public trust goals for navigable waterbodies with rights-of-way or points of access that allow public access for different users.

SECTION 104 removes specific properties (Richard Bong state recreation area, Point Beach state forest) and property types from fee area requirements to simplify fee area information and locations, which is updated and simplified in SECTIONS 105-120. This section also allows the department to specify designated fee areas by posted notice.

SECTION 105 removes Robinson Creek beach and picnic area from areas in Black River state forest as these no longer exist.

SECTION 106 replaces "family" with "standard" campsite consistent with updates in SECTION 14.

SECTION 107 defines Trade River day use area to include Trade River overflow lot, Brandt Pines recreational trail system parking lot and Sioux Portage group campground, as fee areas at Governor Knowles state forest.

SECTION 108 adds "Governor Earl" to Peshtigo River state forest as directed by the Natural Resources Board at its September 2019 meeting. Also adds "campground" to Old Veteran's Lake to clarify the specific area to which a fee applies.

SECTION 109 adds Point Beach state forest and Kettle Moraine state forest - Pike Lake unit to clarify that they are properties to which the admission fee applies.

SECTION 110 removes "Cambrian Overlook" from "Dells of the Wisconsin River state natural area."

SECTION 111 adds as fee areas Lizard Mound state park, Sauk Prairie state recreation area, Lower Wisconsin state riverway – Mazomanie day use area, Lower Wisconsin state riverway – Blackhawk Ridge day use area, Rock Island state park – Jackson Harbor parking lot and Pewits Nest state natural area.

SECTION 112 replaces "state parks" with "properties" and corrects a property name.

SECTION 113 adds Lakeshore state park to the list of properties that do not require an admission fee.

SECTION 114 corrects property names (for example adds "state park" to applicable properties).

SECTION 115 removes Rock Island from the list of properties that do not require an admission fee (see SECTION 111).

SECTION 116 renumbers a provision to fit into the restructured and simplified admission fee provisions (SECTIONS 105-121).

SECTION 117 repeals provisions that are no longer needed with the changes proposed in SECTIONS 105-121.

SECTION 118 removes "Browntown" from the name of "Cadiz Springs" state recreation area (the name was updated during the property master planning process).

SECTION 119 removes "park and" from "Menominee river recreation area" to be consistent with the property name approved by the Natural Resources Board.

SECTION 120 removes the note, "The correct name is Menominee River state recreation area" as it is no longer needed with the name correction in SECTION 119.

SECTION 121 updates terminology consistent with proposed definitions and clarifies that a trailered vehicle does not need to pay an admission fee if it is not operated in the fee area.

SECTION 122 creates a new provision from language deleted in SECTION 121 that says hang gliders flown or trailered in to Richard Bong state recreation area are not required to pay an admission fee.

SECTION 123 repeals the electrical fee as this amount is set in statute.

SECTIONS 124 to 128 and 130 to 135 update campground names, fees and regulations.

SECTION 129 requires a person that is required to carry a state trail pass to show proof of the trail pass to department personnel.

SECTION 136 clarifies that the department may charge for damages to department property.

SECTION 137 updates a cross-reference to the new collecting section.

SECTION 138 corrects spelling of Pewits Nest and adds Bay City Ridge to the title.

SECTION 139 establishes that no person may enter Bay City Ridge SNA earlier than 30 minutes before sunset and no later than 30 minutes after sunset.

SECTION 140 adds wildlife areas, fishery areas, and northern forests to the provision specifying that taking wild animals from department lands by methods other than hunting, fishing, trapping, crayfish harvest, killing of biting insects, and arthropod study is not allowed. This section also establishes that the department can allow archery hunting for deer and turkeys on portions of the

Lapham Peak Unit of the Kettle Moraine Forest in Waukesha County. Hunting is not currently allowed at the property.

SECTIONS 141 and 142 simplify regulations for camping at the Kinnickinnic delta use area.

SECTION 143 adds Kohler-Andrae state park and Point Beach state forest to the existing provisions for protecting the dunes at Whitefish Dunes state park.

SECTION 144 eliminates rules and regulations established for the use of the Havenwoods state forest in Milwaukee county.

SECTION 145 repeals rules specific to Lakeshore state park.

SECTION 146 allows moorage fees to be determined by the department.

SECTION 147 eliminates boat moorage reservation criteria and daytime fee amounts. This section also eliminates criteria for occupancy related to boat moorage fees and notes that daytime fees apply to all watercraft tied to the dock. This section also permits manager discretion on whether temporary moorage is allowed.

SECTION 148 repeals provisions in order to simplify reservation requirements and increase consistency among all overnight reservations.

SECTION 149 replaces "both" with "each" regarding fees for watercraft that are doubled properly to clarify that each watercraft must pay the fee.

SECTION 150 eliminates rules on rafting.

SECTION 151 updates the list of state trails to include the Great Sauk and Mound View state trails.

SECTIONS 152 and 153 clarify applicability of local zoning ordinances to state agencies.

6. Summary of, and Comparison with, Existing or Proposed Federal Statutes and Regulations:

No federal regulations apply. States have regulatory authority over properties under our management or ownership and state regulations do not conflict with regulations established in the Federal Register. None of these rule changes violate or conflict with the provisions established in the Federal Code of Regulations. These rules would not apply on federally owned or managed properties except where, by agreement, state natural areas have been established on federally owned properties by consent of a federal management authority.

7. If Held, Summary of Comments Received During Preliminary Comment Period and at Public Hearing on the Statement of Scope:

On November 9, 2021, the department held a preliminary public hearing on the Statement of Scope for this rule. Three members of the public attended the virtual hearing but did not provide comments, and the department received no written comments during the comment period.

8. Comparison with Similar Rules in Adjacent States:

All of the adjacent states own property which is managed to provide outdoor recreational opportunities for the public, to provide fish and wildlife habitat, and to preserve unique natural communities. All of our adjacent states have developed regulations which enable managers to provide safe and enjoyable recreational experiences. Wisconsin's approach to managing the recreational use of properties that we hold in trust are comparable to that of our surrounding states.

9. Summary of Factual Data and Analytical Methodologies Used and How Any Related Findings Support the Regulatory Approach Chosen:

Expanding the board's policy on the use of department property does not have a regulatory impact. It is intended to be a formal invitation to people from all backgrounds to recreate on department lands. The board has similar statements of policy for specific recreational and management activities in NR Ch. 1, Wis. Adm. Code.

Properties managed by the department are popular destinations for outdoor recreation. Most activities are allowed on department managed lands but some activities are restricted for a variety of reasons. Prohibiting certain activities may be done for safety purposes, to provide quality experiences for a variety of types of property use, or to protect property improvements and natural features. For example, these rules prohibit the use of paper lanterns in order to reduce the potential for wild fires.

These rules establish a specific prohibition of going nude and a definition of nudity that would apply on department managed lands statewide. Nudity, especially at the Mazomanie day use area located on the Lower Wisconsin State Riverway has been occurring for decades. This beach is a state owned and managed property open to all the public. Due to the prevalent nudity, the beach has been almost exclusively used by individuals choosing to go nude. Other problems have included public sex acts, disorderly conduct, and drug use. This type of use has prevented people who do not want to be exposed to activities at the property from recreating there.

Law enforcement efforts have been difficult because laws do not specifically address nudity. Lewd or lascivious behavior requires that a sexual act occur and does not address simple nudity. Disorderly conduct requires a disturbance or complainant. Nudity has become common place at Mazomanie and now people who choose to go there expect nudity and thus there is no complainant or disturbance. Law enforcement efforts against lewd and lascivious behavior or drug use are time intensive, require a lot of manpower, are expensive, and are still unable to address the nudity aspect.

To address the nudity issue the portion of the property immediately around the beach was closed year- round beginning in 2015 in order to break the pattern of use, provide time for potential improvement of the property, and to create an atmosphere where all individuals can come and feel comfortable and safe utilizing one of Wisconsin's most beautiful public beaches.

A prohibition of going nude will provide an expectation to property users and help set a standard for what is tolerated on department managed properties so that all guests can have an enjoyable experience.

As the property owner, the department currently allows people to use trail cameras on lands it manages and in areas that are open to hunting by policy. These rules codify the current policy so that conditions, such as where cameras may be placed and that they contain identifying information of the owner, can be more effectively enforced.

These rules revise regulations at department managed shooting ranges that were initially created in 2017. A team of range managers and users reviewed their effectiveness. It is recommended that eliminating statewide hours of operation will provide greater flexibility to adjust to the use of properties that are adjacent to the ranges and impacted by them. Additional types of targets will be prohibited because they have proven to be a nuisance or a hazard and require volunteers and staff to dedicate time for removing and disposing of those materials. An exception from these rules is expanded so that military training, in addition to police training, can be conducted on ranges. However, both military and law enforcement users will need to arrange with the department in order to assure that these uses are official training exercises.

Additional activities will be prohibited at department managed shooting ranges because those activities have proven to be particularly destructive of the engineered backstops which serve to contain bullets on the range. This damage has resulted in range closures at inopportune times such as before the statewide firearm deer season and has required expensive repairs. In order to improve safety at the ranges, these rules also prohibit shooting from anywhere other than the designated firing line.

10. Analysis and Supporting Documents Used to Determine the Effect on Small Business or in Preparation of an Economic Impact Report:

The department anticipates an annual economic impact of up to \$50,000 (minimal) due to potential fee increases which will apply to people who use department managed lands for recreational activities. The department has prepared a preliminary economic impact analysis and will gather public comments to determine if any individuals, businesses, local governments, or other entities expect to be adversely affected economically by the rule.

Regulations which manage the use of department properties are already in place. This rule is intended to improve management of recreational and natural resources and to enhance enjoyment of these resources on department managed lands. These rules will maintain and improve the resulting beneficial economic impact of outdoor recreation related economic activity throughout Wisconsin.

11. Effect on Small Business (initial regulatory flexibility analysis):

State managed lands provide many outdoor related recreational opportunities and participation in those activities results in associated economic activity which benefits small businesses.

The proposed rules do not specifically regulate small business and would not impose reporting requirements. There are no design or operational standards contained in the rule. User fees modified by these rules apply to members of the public who recreate on department managed lands and should not impact small businesses.

SECTION 37. NR 45.04 (3) (am) 1. and 2. are created to read:

NR 45.04 (3) (am) *Nudity*. 1. In this section, “nude” or “nudity” means being clothed or unclothed in such a manner that the person’s genitals, pubic hair, buttocks, perineum, anus, anal region, or pubic hair region of any person, or any portion of the breast at or below the upper edge of the areola thereof of any female person, is exposed to public view or is not covered by an opaque covering.

2. No person may appear, bathe, sunbathe, walk, or otherwise be nude on any lands under the management, supervision, or control of the department. This does not apply to breastfeeding by nursing parents and does not apply in any of the following areas not open to public view: restrooms, bath houses, showers, changing facilities, or privately-owned camping units.

Note: *Tagami v. City of Chicago*, 875 F. 3d 375 (7th Cir. 2017).

SECTION 38. NR 45.04 (3) (b) is amended to read:

NR 45.04 (3) (b) *Evictions*. The department may expel any person or persons from the lands under the management, supervision and control of the department for violations of any state law, administrative rule or posted rules or regulations. The period of time for which a person may be expelled is 48 hours, or for the period of their camping permit, whichever is longer. The expelled person may not return to the property before the eviction period has elapsed or enter any other ~~state park, forest, recreation area, or any other designated camping area~~ lands under the management, supervision, and control of the department for a period of 48 hours after eviction. Persons expelled are not eligible for refunds for unused camping fees or vehicle admission fees. People charged with violent, assaultive or disorderly behavior may be expelled until after the case is adjudicated in court.

SECTION 39. NR 45.04 (3) (d) 3. is created to read:

NR 45.04 (3) (d) 3. No person may dispose of anything other than human waste and toilet paper in a department toilet facility.

SECTION 40. NR 45.04 (3) (e) (intro.) is renumbered NR 45.04 (3) (e) 1. and is amended to read:

NR 45.04 (3) (e) 1. 'Devices.' Except in accordance with a written permit issued by the department, ~~No no~~ person may operate any ~~sound truck, loudspeaker, device, including an amplified speaker, outdoor electronic device, gasoline powered device,~~ generator, chainsaw, air-conditioner or other device at a volume that ~~produces excessive, loud or unusual noises without first obtaining a written permit from the department.~~ interferes with the enjoyment of the area by others or is likely to cause a disturbance.

SECTION 41. NR 45.04 (3) (e) 2. is created to read:

NR 45.04 (3) (e) 2. 'Camping quiet hours.' No person may make a noise at a level above that of a quiet conversation in camping areas and overnight moorings between the hours of 11:00 p.m. and 6:00 a.m.

SECTION 42. NR 45.04 (3) (f) 1. and 2. and (g) are amended to read:

NR 45.04 (3) (f) *Soliciting.*

1. No person may solicit or collect funds or peddle or solicit business of any nature, post signs or distribute handbills or advertising matter unless first authorized by contractual agreement with the department.
